About First Defiance Financial Corp.

First Defiance Financial Corp., through its subsidiaries, offers traditional banking and property and casualty, life, and group health insurance products. The company's subsidiaries include First Federal Bank of the Midwest (First Federal) and First Insurance & Investments (First Insurance).

The company's banking activities include originating and servicing residential, commercial, and consumer loans. It provides a range of depository services. Its insurance activities consist primarily of commissions relating to the sale of property and casualty and life and group health insurance products.

First Federal Bank of the Midwest

As of December 31, 2009, First Federal conducted operations through 27 full service banking center offices in Allen, Defiance, Fulton, Hancock, Henry, Lucas, Ottawa, Paulding, Putnam, Seneca, Williams, and Wood Counties in northwest Ohio, 1 full service banking center office in Allen county in northeast Indiana, and 7 full service banking center offices in Hillsdale and Lenawee counties in southeast Michigan.

First Federal owns Pavilion Bancorp, Inc (Pavilion) and its subsidiary, Bank of Lenawee.

It also owns ComBanc, Inc. (ComBanc) and its subsidiary, the Commercial Bank, Delphos, Ohio.

First Federal primarily engages in community banking. It attracts deposits from the general public through its offices and uses those and other available sources of funds to originate residential real estate loans, non-residential real estate loans, commercial loans, home improvement and home equity loans, and consumer loans. In addition, First Federal invests in U.S. Treasury and federal government agency obligations, obligations of the State of Ohio and its political subdivisions, mortgage-backed securities, which are issued by federal agencies, including REMICs and CMOs, and corporate bonds.

First Insurance & Investments

First Insurance is an insurance agency that conducts business in the Defiance and Bowling Green, Ohio areas. It offers property and casualty insurance, life insurance and group health insurance.

Deposits

The company offers deposit products that include checking accounts, money market accounts, regular savings accounts, and term certificate accounts.

History

First Defiance Financial Corp. was founded in 1935.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
