About First Financial Northwest, Inc.

First Financial Northwest, Inc. operates as the holding company for First Savings Bank Northwest that provides community-based savings banking services in Washington. It attracts deposits from the public and utilizes those deposits to originate loans. The company serves King, Pierce, Snohomish and Kitsap counties, Washington. It has a banking office located in Renton, Washington.

Lending Activities

The company focuses its lending activities primarily on loans secured by first mortgages on one-to-four family residences, commercial and multifamily real estate. It offers consumer secured loans, including savings account loans and home equity loans, which include lines of credit and second mortgage loans.

One-to-Four Family Residential Real Estate Lending: The company originates one- to four-family residential loans and jumbo fixed rate loans that it retains for its portfolio.

Multifamily and Commercial Real Estate Lending: The company's commercial real estate loans are typically secured by office and medical buildings, retail shopping centers, mini-storage facilities, industrial use buildings, and warehouses. The company

also makes construction loans to owners for commercial development projects. The projects include multifamily, apartment, retail, office/warehouse and office buildings.

Construction/Land Development Loans: The company originates construction/land development loans to residential builders for the construction of single-family residences, condominiums, townhouses and residential developments located in its market area. It originates construction/land development loans to contractors and builders primarily to finance the construction of single-family homes and subdivisions.

Consumer Lending: The company offers consumer loans to its customers, consisting primarily of home equity loans, personal lines of credit and savings account loans. Home equity loans are made for purposes, such as the improvement of residential properties, debt consolidation, and education expenses. The majority of these loans are secured by a first or second mortgage on residential property.

Deposits

The company's deposits include checking accounts, money market deposit accounts, statement savings accounts, and certificates of deposit.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included mortgage-backed securities; tax exempt municipal bonds; taxable municipal bonds; the U.S. Government agencies; mutual fund; and other securities.

First Financial Diversified

The company's subsidiary, First Financial Diversified, primarily provides escrow services to First Savings Bank, other area lenders, and private individuals. First Financial Diversified also offers limited consumer loans to First Savings Banks customers, which consist of short-term unsecured loans, second mortgages, and home equity loans.

Competition

The company's competitors include Banner Bank, Columbia State Bank, Frontier Bank, U.S. Bank, and JP Morgan Chase.

History

First Financial Northwest, Inc. was founded in 1923.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
