About First Ottawa Bancshares Inc.

First Ottawa Bancshares, Inc. operates as the holding company for First National Bank of Ottawa, which provides commercial and consumer banking services to corporations, partnerships, and individuals in Illinois.

Market Area

The company is located in north-central Illinois, with offices in Ottawa, Illinois in LaSalle County. All branches, including, Streator, LaSalle County, Morris and Minooka, Grundy County, and Yorkville, Kendall County, are located in Illinois.

Lending Activities

Consumer Loans: The company provides consumer loans for various purposes, including personal, family, and nonbusiness reasons, such as automobile loans and recreational vehicle loans, on both a direct and indirect basis.

Commercial, Agricultural, and Real Estate Lending

Real Estate Lending: The company's primary real estate lending consists of commercial

loans with a small portion in residential and agricultural real estate loans. Its residential real estate loans consist of 15-year, 20-year, and 30-year fixed-rate and variable-rate loans with amortization periods equal to the maturity of the loan. It also originates loans that are sold into the secondary market through Federal Home Loan Mortgage Corporation and private investors.

Commercial and Agricultural: Agricultural and commercial non-real estate loans are written for one to five years. The general nature of the collateral securing the company's commercial and agricultural loans consists of equipment, farm products, crops, inventory, chattel paper, accounts receivable, and general intangibles.

The company offers installment loans, personal lines of credit, overdraft protection, trust, farm management, and safe deposit services, as well as provides traveler's checks, cashier's checks, foreign currency, and other special services.

Investment Activities

As of December 31, 2009, the company's investment portfolio included the U.S. treasury securities, the U.S. government agencies, states and political subdivisions, mortgage-backed securities and collateralized obligations, and equity securities.

Deposits

The company offers deposit services, including demand, savings, and time deposit accounts; and programs, which include interest-bearing and non-interest-bearing demand deposits, and individual retirement accounts.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
