company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes First Reliance Bancshares Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of First Reliance Bancshares Inc. business.

### **About First Reliance Bancshares Inc.**

First Reliance Bancshares, Inc. operates as a holding company for the First Reliance Bank, which provides various consumer and commercial banking services for individuals, and small and medium-sized businesses.

The company operates out of its main office and five branch offices located in Florence, Lexington, Charleston, Mount Pleasant, Charleston, and West Columbia areas in South Carolina.

#### **Lending Activities**

The company offers a range of commercial and consumer loans, as well as real estate, construction, and acquisition loans. Such loans include both secured and unsecured loans for working capital needs (including loans secured by inventory and accounts receivable), business expansion (including acquisition of real estate and improvements), asset acquisition, and agricultural purposes.

Commercial and Industrial: As of December 31, 2009, the company's loan portfolio included commercial and industrial loans. Commercial loans are for working capital needs. Working capital loans are secured by accounts receivable, inventory, or personal

guarantees of the principals of the business.

**Consumer:** The company makes various loans to individuals for personal and household purposes, including secured and unsecured installment loans and revolving lines of credit, such as credit cards. Installment loans are amortized over periods up to 60 months. Consumer loans are offered on a single maturity basis where a specific source of repayment is available.

### Other Banking Services

The company offers cash management services, including remote deposit capture and business deposit courier service. It also offers wholesale mortgage, title insurance, Internet banking and e-statements, electronic bill paying services, free ATMs, free coin machines at all branches, and an overdraft facility to its customers.

### Investments

The company invests primarily in obligations of the United States or obligations guaranteed as to principal and interest by the United States and other taxable and nontaxable securities. It also invests in certificates of deposits in other financial institutions.

### Deposits

The company offers various deposit services, including checking accounts, NOW accounts, savings accounts, and other time deposits of various types ranging from money market accounts to longer-term certificates of deposit. It also offers individual retirement accounts.

### Other Services

In addition to its banking and investment services, the company offers securities brokerage services and life insurance products to its customers through a networking arrangement with an independent registered broker-dealer firm.

### History

First Reliance Bancshares, Inc. was founded in 1999.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
