## Abstracts

Fischer-Watt Gold Co. Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Fischer-Watt Gold Co. Inc. and its competitors. This provides our Clients with a clear understanding of Fischer-Watt Gold Co. Inc. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Fischer-Watt Gold Co. Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Fischer-Watt Gold Co. Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Fischer-Watt Gold Co. Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Fischer-Watt Gold Co. Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Fischer-Watt Gold Co. Inc. business.

### **About Fischer-Watt Gold Co. Inc.**

Fischer-Watt Gold Company, Inc. engages in mining and exploration of mineral properties. The company's activities also include locating, acquiring, exploring, improving, leasing and developing mineral interests, primarily in the field of precious metals. The company's subsidiary is Tournigan USA Inc. (TUSA).

#### **Mineral Claims and Leases**

The mineral holdings in TUSA are comprised of 2,445 Federal lode claims covering 50,514 acres in Wyoming, South Dakota and Arizona, along with 3 state leases covering 879 acres in Wyoming. All the claims and leases are 100% controlled in TUSA.

#### **Wyoming**

The Wyoming properties consist of 1,571 Federal claims covering 32,457 acres and 3 State leases covering 879 acres distributed in 5 areas of prospective uranium bearing geology.

#### **Cyclone Rim**

The main exploration area in TUSA is in the Cyclone Rim covering 23,097 acres. The claims are located in the northwestern portion of the Great Divide Basin and are located in Township 26 North, Range 96 West and Township 25 North, Range 94 through 96 West.

### South Pass

The 173 claims and 2 leases covering 3,813 acres at South Pass are located along the southeast flank of the Wind River Mountains in the Green River Basin.

### Shirley Basin

The Shirley Basin uranium district is located in the northeastern part of Carbon County, between Casper and Medicine Bow. TUSA holds claims in 2 areas of Shirley Basin, the MSB block of 132 claims and the NSB block of 45 claims. These 177 claims covering 3,657 acres are at the southern end of the Middle Shirley Basin Trend are in an area of reported uranium mineralization.

### South Dakota

In South Dakota, TUSA holds 3 claim blocks totaling 256 claims over 5,300 acres in an area approximately 8 miles north of the town of Edgemont in the southern Black Hills district.

### Arizona

TUSA holds 618 Federal lode claims on 12,768 acres in Mohave County, northern Arizona in the area known as the Arizona Strip immediately south of the Utah border.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
