The Fisher & Paykel Appliances Holdings Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main

financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Fisher & Paykel Appliances Holdings Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Fisher & Paykel Appliances Holdings Ltd. business.

About Fisher & Paykel Appliances Holdings Ltd.

Fisher & Paykel Appliances Holdings Limited engages in the design, manufacture, and marketing of household appliances developed with a commitment to technology, design, user friendliness and environmental awareness.

The company operates as a parent company for Fisher & Paykel Appliances Limited and Fisher & Paykel Finance Limited. In October 2004 the company acquired Dynamic Cooking Systems Inc. (DCS), which engages in the manufacture and distribution of premium cooking appliances in U.S. The company's manufacturing facilities are located in Auckland and Dunedin in New Zealand, and Cleveland, Queensland, Australia. The company principally operates in New Zealand, Australia, U.K., the USA, Singapore, and Europe.

Products

The company's systems, such as Smart Drive autowashers, Active Smart refrigerators, AeroTech ovens, and DishDrawer dishwashers are offered in international markets from

Asia to Europe, and the home of appliances, the USA.

The company's product offerings include: cooking products, such as built in ovens, drop in ovens, freestanding ranges, gas Cooktops, ceramic Cooktops, Rangeshoods, and Splashbacks; refrigeration products, such as refrigerators, compacts, pigeon pairs, chest freezers, side by sides, bar refrigerators, and food care; dishwashing products, such as Dishdrawers, dishwashers, waste disposers, and energy saving tips; and laundry product, such as washers and dryers.

Business Areas

The company operates its business in two areas: appliance manufacturer, distributor, and marketer (Appliances Group); and financial services in New Zealand (Finance Group).

Appliances Group

The company through its appliances group engages in the design and manufacture of major household appliances in New Zealand and Australia. The group expanded in the USA, and has manufacturing facilities in Huntington Beach, California.

Finance Group

The company through its finance group provides retail point of sale consumer finance, including the farmers card, insurance services, and rental and leasing finance.

Markets

The company principally markets its products in Australia, Bangladesh, Belgium, Brunei, Canada, Cook Islands, Cyprus, Denmark, Fiji, Finland, Germany, Greece, Hong Kong, Ireland, Israel, Japan, Malaysia, Mauritius, The Netherlands, New Caledonia, New Zealand, Niue, Norfolk Island, Norway, Oman, Palau, Papua New Guinea, Philippines, Reunion Island, Samoa, Seychelles, Singapore, Slovenia, Solomon Islands, Sri Lanka, Sweden, Switzerland, Tahiti, Taiwan, Thailand, Tonga, United Arab Emirates, United Kingdom, the USA, Vanuatu, and Vietnam.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need

2-3 days to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
