The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Flagstone Reinsurance Holdings SA business.

About Flagstone Reinsurance Holdings SA

Flagstone Reinsurance Holdings Limited, through its wholly owned subsidiary, Flagstone Réassurance Suisse SA (Flagstone Suisse), provides property, property catastrophe, and short-tail specialty and casualty reinsurance.

Segments

Reinsurance segment and Products

The company writes primarily property, property catastrophe, and short-tail specialty and casualty reinsurance from its offices in Switzerland, Bermuda, Africa, Cyprus, Puerto Rico, and Dubai. The company primarily focuses on writing the following products:

Property Catastrophe Reinsurance: 0Property catastrophe reinsurance contracts are 'all risk' in nature, meaning that they protect against losses from earthquakes and hurricanes, as well as other natural and man-made catastrophes such as tornados, fires, winter storms, and floods (where the contract specifically provides for coverage).

The company also provides industry loss warranty covers, which are triggered by loss and loss adjustment expenses incurred by the cedent and some pre-determined absolute level of industry-wide losses resulting from an insured event or by specific parameters of a defined event (such as a magnitude 8 earthquake or a category 4 hurricane).

Property Reinsurance: The company also provides reinsurance on a pro rata share basis and per risk excess of loss basis.

Short-tail Specialty and Casualty Reinsurance: The company also provides short-tail specialty and casualty reinsurance for risks such as aviation, energy, personal accident and health, satellite, marine and workers' compensation. Generally, its short-tail specialty and casualty reinsurance is written with loss limitation provisions.

Insurance segment and Products

Island Heritage is a property insurer domiciled in the Cayman Islands which is primarily in the business of insuring homes, condominiums and office buildings in the Caribbean region.

Lloyd's segment and Products

The company's Lloyd's segment includes the business generated through the Lloyd's Syndicate 1861 and Marlborough. Syndicate 1861 primarily provides property and short-tail specialty and casualty insurance and reinsurance for risks such as energy, hull and cargo, marine liability, engineering and aviation.

Global Operating Platform

The company has offices in Bermuda, Switzerland, India, the United Kingdom, Canada, Puerto Rico, Dubai, Cayman Islands, Cyprus, South Africa, Isle of Man, Brazil, the United States and Luxembourg.

Flagstone Suisse is based in Martigny in the canton of Valais, Switzerland. Through this local presence, the company is in a position to closely follow and respond effectively to the changing needs of the various European and Bermuda insurance markets.

Flagstone Suisse is licensed by the Swiss Financial Market Supervisory Authority, or FINMA, in Switzerland. Flagstone Suisse is also a licensed permit company registered

in Bermuda as a Class 4 insurer under the Bermuda Insurance Act operating through its Bermuda branch which complements its Swiss based underwriters with a separately staffed Bermuda underwriting platform.

In London, England, the company has Marlborough, the managing agency for Lloyd's Syndicate 1861 - a Lloyd's syndicate underwriting a specialist portfolio of short-tail insurance and reinsurance and an international reinsurance marketing operation promoting Flagstone to international and multinational clients. In addition, its U.K. operations, through Flagstone Representatives Limited, its London based market intermediary regulated by the Financial Services Authority (FSA), work alongside its underwriters to develop global business opportunities and maintain relationships with existing clients.

In Dubai, the company has established and licensed a reinsurance intermediary operation with the Dubai Financial Services Authority to provide marketing and underwriting support for the Middle East and North Africa on behalf of Flagstone Suisse.

In the Cayman Islands, the company writes insurance business generated through Island Heritage, which primarily is in the business of insuring homes, condominiums and office buildings in the Caribbean region.

In the Republic of Cyprus, the comp

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
