The Flanders Corporation financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Flanders Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Flanders Corporation business.

## **About Flanders Corporation**

Flanders Corporation engages in the design, manufacture, and marketing of air filters and related products. The company focuses on providing environmental filtration systems for end uses ranging from controlling contaminants in residences and commercial office buildings through specialized manufacturing environments for semiconductors, pharmaceuticals, chemical, biological, radiological, and nuclear processing. It also designs and manufactures its own production equipment to automate its processes.

### **Products**

The company designs, manufactures, and markets a range of air filters and related products, including residential heating and air conditioning filters, typically sold through retailers under the Flanders~Precisionaire brand name; residential air cleaners, which offer different filtration types ranging from single-room high efficiency particulate air (HEPA) units which clean the air in a room to near-cleanroom levels to in-duct electrostatic precipitators which remove large quantities of airborne contaminants from entire residences without negatively impacting the efficiency of heating, ventilation and air conditioning systems (HVAC) systems; industrial specialty filters, which are used in various industries, including paint facilities, automobile factories, chemical treatment

plants, mushroom farms, coal mines, oil refineries, and power plants; commercial and industrial filters for use in office and general manufacturing environments, typically sold through wholesalers and distributors; and high efficiency particulate air (HEPA) filters in various grades, for use in semiconductor facilities, nuclear containment vessels, disease containment facilities, and other critical applications.

The company also offers absolute isolation barriers which are customized stand-alone units, typically manufactured of stainless steel, used in various industries which require absolute control over contaminants, atmospheric composition, and containment; carbon filters, both in bonded panels, various impregnated medias, and activated charcoal beds, used to remove gaseous contaminants, odors and toxic chemical vapors in various commercial and industrial applications; specialized air filter housings for use in multi-stage filtration applications; other related products, including ductwork and equipment cleaning chemicals, custom air handlers, and specialized filter housings; and surface finishing filters for any paint booth or surface finishing application in the overall surface finishing market.

## Customers

The company's customers include Texas Instruments; The Home Depot, Inc.; Lowe's; Glaxo; Merck & Co., Inc.; Upjohn Co.; Wal-Mart Stores, Inc.; Westinghouse Electric Corp.; Ace; True Value; Intel; and various U.S. government agencies.

## Competition

The company's major competitors include American Air Filter International; Camfil Farr Company; Donaldson Company, Inc.; 3M; and Clarcor Inc.

## History

Flanders Corporation was founded in 1986.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. ## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
