Such information creates your awareness about principal trends of FNB Bancorp business.

About FNB Bancorp

FNB Bancorp operates as the holding company for First National Bank of Northern California, which provides business and commercial banking services for individuals and small to mid-sized businesses in San Mateo and San Francisco Counties, California.

The company operates 13 full service banking offices in the cities of Colma, Daly City, South San Francisco, Millbrae, Pacifica, Half Moon Bay, San Mateo, Redwood City, and Pescadero, as well as its Financial District and Portola offices in San Francisco.

Services

The company offers a range of services to individuals and businesses in its primary service area, including a line of business financial products with specialized services, such as courier, appointment banking, and business Internet banking. It offers personal and business checking and savings accounts, including individual interest-bearing negotiable orders of withdrawal (NOW), money market accounts and/or accounts combining checking, savings accounts with automatic transfer capabilities, IRA accounts, time certificates of deposit, direct deposit services, and computer cash management with access through the Internet. In addition, it sells travelers checks and cashiers checks, offers automated teller machine (ATM) services tied in with statewide

and national networks and offers other customary commercial banking services.

Loans

The company makes available commercial loans and standby letters of credit and construction, accounts receivable, inventory, automobile, home improvement, residential real estate, commercial real estate, home equity lines, small business administration, office equipment, leasehold improvement, and consumer loans, as well as overdraft protection lines of credit.

Investment Activities

The company's investment portfolio primarily comprises debt securities of U. S. government agencies, mortgage-backed securities that have their principal guaranteed by U. S. government agencies, and in obligations of states and their political subdivisions.

History

FNB Bancorp was founded in 1963.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
