The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Forever Enterprises Inc. business.

About Forever Enterprises Inc.

Forever Enterprises, Inc., incorporated in Texas in 1980, through its wholly-owned subsidiaries, Forever Network, Inc., Memorial Service Life Insurance Company and Lincoln Memorial Life Insurance Company, owns and operates combination funeral home and cemetery properties, markets and produces multimedia LifeStories™, operates an Internet marketing site, and operates life insurance companies that principally issue insurance contracts to fund pre-need funeral contracts.

The Company archives the digital interactive LifeStories™, which can be viewed at company's cemetery/funeral homes or privately in the home and on the Internet at www.forevernetwork.com.

Substantially all of the life insurance policies issued by Memorial Service Life Insurance Company and Lincoln Memorial Life Insurance Company are to fund prearranged funeral contracts sold by National Prearranged Services, Inc. and National Prearranged Services Agency, Inc. National Prearranged Services is an affiliated company that collects all payments for prearranged funeral contracts and remits such amounts to the company either directly or through assumed reinsurance.

During 2002, the company acquired five cemetery/funeral home properties, increasing

its presence in the metropolitan St. Louis, Missouri market and establishing new business opportunities in the Austin, Texas market.

National Prearranged Services

National Prearranged Services, an affiliate of the company, has marketed prearranged funeral contracts since 1979 for funeral homes in Missouri, Texas and seven other states, and is licensed to expand into an additional 34 states. In addition to marketing, National Prearranged Services recruits, trains and manages an agency field force, which is dedicated to selling only the products of the affiliated group of companies. The market for pre-need products is primarily in the 50 and older age group.

Forever Network currently owns and operates eight cemetery/funeral home properties in metropolitan St. Louis and Kansas City, Missouri, Austin, Texas and Los Angeles, California.

Competition

In the cemetery/funeral industry the company competes with Service Corporation International, Alderwoods, Stewart Enterprises, Inc. and Carriage Services, Inc.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
