## Abstracts

Fortress Energy, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Fortress Energy, Inc. and its competitors. This provides our Clients with a clear understanding of Fortress Energy, Inc. position in the [Energy](#) Industry.

The report contains detailed information about Fortress Energy, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Fortress Energy, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Fortress Energy, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Fortress Energy, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Fortress Energy, Inc. business.

### **About Fortress Energy, Inc.**

Fortress Energy, Inc., a junior oil and gas company, engages in the exploration, development and production of natural gas reserves in Western Canada.

#### **PRINCIPAL PROPERTIES**

Mearon, Alberta: At Mearon North, the company holds an interest in 20,269 gross acres (15,949 net). It maintains a 100% working interest and operates the producing portion of the property. The company has an interest in 11 wells in this area.

Square Creek, Alberta: Fortress is the operator of the property and holds working interests ranging from 50% to 100% in approximately 32,000 gross acres (21,440 net) of land. The company obtained its interest through a joint venture farm-in with a senior oil and natural gas producer that was entered into by a predecessor.

Buick Creek, British Columbia: In Buick Creek, the company holds an interest in 6,737 gross acres (6,038 net). It has an interest in 4 wells in this area.

Chigwell, Alberta: The Chigwell property features multi-zone targets in the Edmonton, Belly River, Viking, Glauconite and Ellerslie formations at depths of 250 meters for

shallow Edmonton tests to 1800 meters for Lower Mannville tests. The company holds an interest in 4,375 gross acres (3,207 net) in Chigwell.

Bashaw, Alberta: The company holds an interest in 4,629 gross acres (2,198 net) in Bashaw. It has an interest in 20 wells in the Bashaw area.

Ladyfern North, British Columbia: At Ladyfern North, the company holds an interest in 6,320 gross acres (5,910 net). The company maintains a 100% working interest (and operatorship) in the producing portion of the property. It has an interest in 12 wells in this area. Exploration and development targets in the Ladyfern area have typically focused on the Devonian Slave Point, Triassic Charlie Lake/Halfway and Cretaceous Bluesky/Gething formations.

Ladyfern South, British Columbia: At Ladyfern South, the company holds an interest in 21,047 gross acres (12,602 net). The company operates the property with a senior oil and gas producer as a joint venture partner. It has an interest in 13 wells in this area.

Velma, British Columbia: At Velma, the company holds an interest in 8,384 gross acres (6,567 net). The company maintains a 100% working interest (and operates) the producing portion of the property. It has a 100% working interest in two wells in this area.

Pine Creek, Alberta: The company holds an interest in 640 gross and net acres of land in the area and acquired its leasehold interest on this prospect in July 2008.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
