Abstracts

Franklin Electric Co. Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Franklin Electric Co. Inc. and its competitors. This provides our Clients with a clear understanding of Franklin Electric Co. Inc. position in the [Electrical Equipment](#) Industry.

The report contains detailed information about Franklin Electric Co. Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Franklin Electric Co. Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Franklin Electric Co. Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Franklin Electric Co. Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Franklin Electric Co. Inc. business.

About Franklin Electric Co. Inc.

Franklin Electric Co., Inc., together with its subsidiaries, engages in the design, manufacture, and distribution of groundwater and fuel pumping systems, composed primarily of submersible pumps and motors, electronic controls and related parts and equipment.

Segments

The company's business consists of two segments based on the principal end market served: the Water Systems segment and the Fueling Systems segment.

Water Systems segment

Water Systems engages in the production and marketing of groundwater pumping systems. It also engages in submersible pumps and motors, drives, electronic controls, and monitoring devices. The Water Systems segment designs, manufactures, and sells motors, pumps, electronic controls and related parts and equipment primarily for use in submersible water and other fluid system applications.

Water Systems motors and pumps are used principally in submersible applications for

pumping fresh water, wastewater, and other liquids in various residential, agricultural, and industrial applications, off-shore drilling, and mining. Water Systems also manufactures electronic drives and controls for the motors which control functionality and provide protection from various hazards, such as electric surges, over-heating, or dry wells and tanks.

During 2009, the company acquired Vertical S.p.A. (Vertical), a pump component manufacturer in Italy. Vertical designs, develops, and manufactures pressed and welded stainless steel pumps and pump components.

Competition: The Company's principal competitors in the specialty water products industry are Grundfos Management A/S, Pentair, Inc., and ITTCorporation.

Fueling Systems segment

Fueling Systems engages in the production and marketing of fuel pumping systems and electronic controls and monitoring devices. This segment designs, manufactures, and sells pumps, electronic controls, and related parts and equipment primarily for use in submersible fueling system applications. It also integrates and sells motors and electronic controls produced by the Water Systems segment. Along with the fueling motor and pump applications, Fueling Systems supplies various products to the petroleum equipment industry, such as: flexible piping, vapor recovery components and systems, electronic tank monitoring equipment, mechanical and electronic leak detection equipment, and fittings.

Competition: The company's principal competitors in the petroleum equipment industry are Danaher Corporation and Dover Corporation.

Sales and Marketing

The company's products are sold in North America, Europe, the Middle East, South Africa, Australia, Mexico, Brazil, Japan, China, and other world markets. The company's products and related equipment are sold to specialty Water Systems distributors and some original equipment manufactures (OEMs), as well as industrial equipment distributors, fuel service station operators, and oil and utility companies.

History

Franklin Electric Co., Inc. was founded in 1944.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
