About French Connection Group plc

French Connection Group plc engages in the design, production, and distribution of branded fashion clothing for men and women. The company engages in the retailing and wholesaling of branded fashion clothing and accessories in approximately 30 countries around the world. The company principally operates in U.K., Europe, and North America.

The company operates under four principal brands, the most significant of which is French Connection. Its other brands include the designer label, Nicole Farhi, a mail-order based ladies fashion range, TOAST, and a fashion basics range, Great Plains.

French Connection: French Connection operates at the upper end of the middle market offering a fashion-forward of products to the customers aged 18-35. The company designs both men's and women's products from underwear to outerwear, casual wear to suits, denim, accessories and kidswear.

The company has granted franchises and licences to retailers to operate French Connection branded retail stores in the U.K., Middle East, Asia, and Australia. As of January 31, 2005, the company's total owned and operated stores were in 148 retail locations, and franchised and licensed stores in 105 retail locations.

Department stores and multi-brand fashion stores also carry the company's ranges, bought through its wholesale operations based in London, New York, Milan and Hong Kong. The company has granted franchises and licences to retailers to operate French Connection branded retail stores in the U.K., Middle East, Asia, and Australia.

The company's 'fcuk' branding has become synonymous with contemporary, cool fashion and has been extended into complimentary licensed products including men's and women's toiletries, shoes, watches and eyewear. The company's men's and ladies' toiletries licence in the U.K. with Boots has produced toiletries. Zirh Skin Nutrition has developed fcuk fragrances for the rest of the world.

History

French Connection Group plc was founded by Stephen Marks in 1969.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
