About Gap Inc.

The Gap, Inc. operates as a specialty retailer. The company offers clothing, accessories, and personal care products for men, women, children, and babies under the Gap, Old Navy, Banana Republic, Piperlime, and Athleta brands.

The company operates stores in the United States, Canada, the United Kingdom, France, Ireland, and Japan. It also has franchise agreements with unaffiliated franchisees to operate Gap and Banana Republic stores in other countries worldwide. The company designs most of its products, which are manufactured by independent sources, and sells them under its brands:

Gap: Gap stores offer a selection of casual apparel. Products range from wardrobe basics, such as denim, khakis, and T-shirts to fashion apparel, accessories, and personal care products for men and women. These stores offer casual apparel and accessories in the tradition of Gap style for children ages newborn through pre-teen. The company also offers maternity apparel. The company offers GapBody for women's underwear, sleepwear, loungewear, and sports and active apparel. The company also operates Gap Outlet stores, which carry similar categories of products.

Old Navy: Old Navy offers selections of apparel, shoes, and accessories for adults, children, and infants, as well as other items, including a maternity line, consumables,

and personal care products.

Banana Republic: Banana Republic offers collections of casual and modified apparel, shoes, accessories, and personal care products for men and women. The company also operates Banana Republic Factory Stores, which carry similar categories of products. As of January 30, 2010, the company operated a total of 3,095 store locations.

The company has two additional brands: Piperlime, an online-only store located at piperlime.com, and Athleta, an online and catalog store located at athleta.com.

Piperlime: Piperlime offers customers an assortment of the brands in footwear, handbags, apparel, and jewelry for women and footwear for men and kids, as well as tips, trends, and advice from style authorities.

Athleta: Athleta offers customers women's sports and active apparel and footwear, including golf, running, skiing and snowboarding, tennis, and yoga. Customers can purchase Athleta product, as well as an assortment of products from brands in women's active wear, online or through the catalog.

Franchising

The company has franchise agreements with unaffiliated franchisees to operate Gap and/or Banana Republic stores in Australia, Bahrain, Bulgaria, Croatia, Cyprus, Egypt, Greece, Indonesia, Israel, Jordan, Kuwait, Malaysia, Mexico, Oman, Philippines, Qatar, Romania, Russia, Saudi Arabia, Singapore, South Korea, Thailand, Turkey, and the United Arab Emirates.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
