company's decision-making processes.

In the part that describes GelStat Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of GelStat Corp. business.

About GelStat Corp.

GelStat Corporation, a development stage company, engages in the development and marketing of over the counter consumer health care products.

Products

The Company is developing four new consumer health care products throughout the United States. The products include GelStat Migraine, GelStat Arthritis, GelStat Sinus and GelStat Sleep.

GelStat Migraine

GelStat Migraine is a patent pending homeopathic drug intended for use in providing relief from the pain and associated symptoms of migraine and migraine-like headaches. GelStat Migraine is administered sublingually (under the tongue), where it is held in place briefly before being swallowed.

The Company has developed a delivery system designed to improve the active ingredients in GelStat Migraine, including their speed of action.

GelStat Migraine is provided in single dose (OraDose) dispensers. The OraDose

System is GelStat's proprietary, patent pending sublingual administration system. It also includes a product formulation designed to enable and improve sublingual delivery of active ingredients zingiber officinale (ginger) and pyrethrum parthenium (feverfew).

GelStat Arthritis

The Company has completed development of GelStat Arthritis. GelStat Arthritis is a sublingual dissolving tablet intended for the treatment of pain and associated symptoms of arthritis. GelStat Arthritis is an OTC homeopathic drug. GelStat Arthritis is provided as a sublingually dissolving tablet. The tablets are formulated for sublingual delivery of active ingredients.

GelStat Sinus

GelStat Sinus is used as a remedy for nasal and/or sinus congestion, irritation, and pressure, including sinus headache. GelStat Sinus is an OTC homeopathic drug. GelStat Sinus is provided as a nasal spray. Nasal administration of aerosolized particles, whereby active ingredients are placed in direct contact with or immediately adjacent to the affected membranes, is particularly advantageous in the treatment of nasal and sinus conditions. The nasal spray is formulated for nasal delivery of active ingredients. GelStat Sinus is under final development. GelStat Sinus is intended to be introduced to consumers in 2005.

GelStat Sleep

GelStat Sleep is under final development. GelStat Sleep is used as a sleep aid. GelStat Sleep is provided as an orally dispersible tablet. The tablets are formulated for delivery of active ingredients.

OraDose Delivery System

The OraDose Delivery System is a patent pending delivery system employed by the Company for sublingual (under the tongue) administration of GelStat Migraine. The OraDose System includes not only the OraDose dispenser, but also the specific formulations used to improve sublingual absorption of the medication. The OraDose System is an effective means of delivering liquid formulations sublingually, especially GelStat Migraine.

Significant Events

In 2004, the Company formed a wholly owned subsidiary, GS Pharma, Inc.

Customers

The Company's customers include Mass merchandisers, including Wal-Mart, and Target and Club stores, including Sam's Club.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
