The Gem Diamonds Limited financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Gem Diamonds Limited competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Gem Diamonds Limited business.

About Gem Diamonds Limited

Gem Diamonds Limited engages in the acquisition and development of diamond mineral properties.

The company's portfolio comprises producing kimberlite and lamproite mines, development projects and exploration assets, as well as diamond beneficiation centres. Its operations and projects are situated in Angola, Australia, Botswana, the Central African Republic (CAR), the Democratic Republic of Congo (DRC), Dubai, Lesotho, Mauritius, and Indonesia.

Lesotho

The company owns 70% of Let*eng Diamonds in partnership with the Government of the Kingdom of Lesotho which owns the remaining 30%.

Australia

The company, in December 2007, acquired Kimberley Diamond Company. Kimberley Diamonds owns 100% of the Ellendale mine. The Ellendale mine is a producer of yellow diamonds. Kimberley Diamonds also holds a 39% interest in Blina Diamonds, an alluvial

diamond mining and diamond exploration company adjacent to the Ellendale mine.

Indonesia

BDI Mining was acquired by Gem Diamonds in 2007. It owns 80% of the Cempaka alluvial diamond mine in south Kalimantan, Indonesia in partnership with the Government of Indonesia which owns the remaining 20%.

Botswana

Gem Diamonds acquired Gope Exploration Company from De Beers and Xstrata in 2007. Gope Exploration is the holder of a retention licence covering the Gope 25 kimberlite deposit in the Central Kalahari Game Reserve.

DRC

The company's operations in the DRC comprise alluvial diamond projects and a kimberlite exploration programme across three areas: Mbelenge, Lubembe and Longatshimo.

CAR

The company holds a 75% interest in Gem Diamonds Centrafrique SA, in partnership with the Government of the CAR which holds the remaining 25%. Gem Diamonds Centrafrique holds exploration and mining rights to the 800 square kilometers Mamb Concession.

Angola

The company signed a cooperation agreement in 2007 with Avantis Angola with respect to a preliminary feasibility report to be produced on the Chiri kimberlite deposit in the Lunda Sul Province of Angola.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
