The Georgia Carolina Bancshares Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Georgia Carolina Bancshares Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Georgia Carolina Bancshares Inc. business.

### **About Georgia Carolina Bancshares Inc.**

Georgia-Carolina Bancshares, Inc. operates as the holding company for First Bank of Georgia, which provides various banking products and services to individuals and small-to-medium-sized businesses.

#### Market Area

The company operates three branch offices in Augusta, Georgia; two branch offices in Martinez, Georgia; and one branch office in Thomson, Georgia. The primary service area of the company includes the counties of Richmond, Columbia, and McDuffie, Georgia; the communities of Augusta, Martinez, Evans, and Thomson, Georgia; and Aiken County, South Carolina.

The company offers a range of deposit and lending services and is a member of an electronic banking network that enables its customers to use the automated teller machines of other financial institutions. The company, through Willhaven Holdings, LLC, holds certain other real estate of it.

#### Loan Portfolio

The company engages in lending activities, including commercial, consumer/installment, and real estate loans.

The company's commercial lending includes loans made to individual, partnership or corporate borrowers, for various business purposes. These loans include short-term lines of credit, short- to medium-term plant and equipment loans, loans for general working capital, and letters of credit.

The company's consumer loans include installment loans to individuals for personal, family or household purposes, including automobile loans to individuals and pre-approved lines of credit.

The company's real estate mortgage loans include commercial mortgage lending and residential mortgage lending. Its commercial mortgage loans are generally secured by office buildings, retail establishments, and other types of property. The company's residential mortgage loans are primarily single-family residential loans secured by the residential property.

The company's real estate construction loans consist of residential and commercial construction loans, as well as land development loans. These loans are primarily construction and development loans to builders in the Augusta and Savannah, Georgia areas and the Jacksonville, Florida area.

## Investment Portfolio

The company invests primarily in obligations of the United States or agencies of the United States, mortgage-backed securities and obligations, certain obligations of states and municipalities, corporate securities, Federal Home Loan Bank stock, and bank-owned life insurance.

## Deposits

The company's deposit products include commercial and consumer interest bearing and non-interest bearing deposit accounts, including checking accounts, money market accounts, negotiable order of withdrawal (NOW) accounts, individual retirement accounts, certificates of deposit, and regular savings accounts.

## History

Georgia-Carolina Bancshares, Inc. was founded in 1997.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
