The Gold Canyon Resources Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Gold Canyon Resources Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Gold Canyon Resources Inc. business.

About Gold Canyon Resources Inc.

Gold Canyon Resources Inc. engages in the exploration and development of mineral properties in North America. The company's exploration efforts are focused in Ontario, Canada and the State of Nevada in the United States.

Properties

The company is exploring four projects ranging from early through advanced exploration stages. These projects are Springpole Gold Project; Cordero Gallium Project; Favourable Lake Project (Polymetallic); and Horseshoe Island Gold Project.

Springpole Gold Project: The Springpole Gold Project is located approximately 70 miles (115 kilometers) northeast of the town of Red Lake, in the Red Lake Mining District, in the district of Kenora in northwestern Ontario. The company is in the exploration stage with respect to its interests in this mineral property which consist of 225 claims and cover approximately 20,000 acres. The company maintains 100% control of all claims through leasehold interest and direct location. In 2008, the company completed a drill program that consisted of 7 drill holes totaling 2,452 meters of diamond drilling.

Cordero Gallium Project: The company controls a 100% interest in the Cordero Gallium

Project by leasehold interest and direct location through its 100% owned subsidiary Gold Canyon Resources USA Inc. The project, located in north-central Nevada covering approximately 3,800 acres, is a gallium occurrence in North America.

Favourable Lake Project: The company has acquired a 100% interest in the Favourable Lake Poly-metallic property. The property is approximately 120 miles (200 kilometers) north of Red Lake, Ontario and consists of 268 individual claims units covering approximately 10,590 acres in the mineralized Favourable Lake Greenstone Belt. It has entered into a mineral property option agreement with Shoreham Resources Ltd.

Horseshoe Island Gold Project: The company has acquired an assignment of an option to acquire 100% of 10 contiguous mineral claims (79 units) representing the Horseshoe Island gold occurrence held by Vital Resources Corp (Vital). Additional ground was also staked which links the Horseshoe Island property to the Springpole Gold Project. The company would focus on the Au (gold) – Pt (platinum) – Pd (palladium) – Ni (nickel) – Cu (copper) potential of the new ground.

History

Gold Canyon Resources Inc. was incorporated in 1985.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
