Abstracts

Gold Crest Mines, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Gold Crest Mines, Inc. and its competitors. This provides our Clients with a clear understanding of Gold Crest Mines, Inc. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Gold Crest Mines, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Gold Crest Mines, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Gold Crest Mines, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Gold Crest Mines, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Gold Crest Mines, Inc. business.

About Gold Crest Mines, Inc.

Gold Crest Mines, Inc., an exploration stage company, engages in the acquisition, exploration, development, and mining of mineral deposits in Alaska and Idaho. As of December 31, 2008, the company controlled approximately 37,560 acres of land under state of Alaska jurisdiction.

In January 2008, the company entered into an option and royalty sales agreement with the Estate of J.J. Oberbillig (the Oberbillig Agreement). The company also entered into an option and real property sales agreement with JJO, LLC, (JJO). This option gives the company the right to acquire approximately 255 acres of patented mining and mill site claims in the Stibnite area from the Oberbillig Estate.

In March 2008, the company entered into a mining lease and option to purchase agreement with the Bradley Mining Company. Pursuant to the terms of the agreement, the company has been granted an option in a real property located in the Stibnite mining district, Valley County, Idaho (the Bradley Property), which includes nine patented mining claims, including approximately 175 acres.

Southwest Kuskokwim Project

The company's wholly owned subsidiary Kisa Gold Mining, Inc. (KGMI) controls or has interests in seven claim blocks, including 199 state of Alaska mining claims covering approximately 30,520 acres in the Kisaralik Lake area of southwest Alaska. Of the 30,520 acres, approximately 15,320 are placed with Golden Lynx, LLC as part of the company's joint venture with Cougar Gold LLC.

Kisa Prospect: The Kisa claim group includes 32 state mining claims, including approximately 4,520 acres.

Gold Lake Prospect: The Gold Lake claim group includes 44 state mining claims, including approximately 6,320 acres.

AKO Prospect: The AKO claim group is located in the southwestern Kuskokwim mountains approximately 9 miles southwest of the Kisa Prospect. The company controls approximately 7,200 acres on 45 state mining claims.

Luna Prospect: The Luna claim group is located in the southern Kuskokwim mountains of southwestern Alaska approximately 100 miles to the southeast of Bethel and six miles west of the Kisa prospect.

Little Swift: Little Swift includes 14 state mining claims covering approximately 2,240 acres.

Gold Creek: Gold Creek includes 12 state mining claims covering approximately 1,920 acres and were staked to prospect various iron-oxide stained color anomalies.

Gossan Valley: Gossan Valley includes two state mining claims covering approximately 320 acres located approximately six miles south of the AKO prospect. The property is held under a joint venture agreement with Cougar Gold LLC, operator of the Golden Lynx LLC.

Buckstock Project

The company's wholly owned subsidiary Kisa Gold Mining, Inc., (KGMI) had staked 316 state of Alaska mining claims, including approximately 51,560 acres in seven claim groups.

Chilly: This prospect includes 44 state of Alaska mining claims covering approximately 7,000 acres.

In May 2008, the company signed three separate joint venture agreements with Newmont North America Exploration Limited, a subsidiary of Newmont Mining Corporation (Newmont).

Idaho Properties

Niagara Mining and Development Co., Inc., (Niagara) a wholly owned subsidiary of the company has established a dominant land position in the historic Yellow Pine-Stibnite Mining District. The company controls approximately 230 unpatented federal mining claims and a substantial acreage of patented lode and mill site claims through preliminary option agreements totaling approximately 4,500 acres in the district.

History

Gold Crest Mines, Inc. was founded in 2005.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
