Abstracts

Golden Star Resources, Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Golden Star Resources, Ltd. and its competitors. This provides our Clients with a clear understanding of Golden Star Resources, Ltd. position in the [Metals and Mining Industry](#).

The report contains detailed information about Golden Star Resources, Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Golden Star Resources, Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Golden Star Resources, Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Golden Star Resources, Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Golden Star Resources, Ltd. business.

About Golden Star Resources, Ltd.

Golden Star Resources Ltd., a gold mining and exploration company, engages in the exploration and production of gold in Ghana, West Africa. It also conducts gold exploration in other countries West Africa and in South America.

The company, through a 90% owned subsidiary, Golden Star Bogoso/Prestea Limited (GSBPL), owns and operates the Bogoso/Prestea gold mining and processing operations (Bogoso/Prestea) located near the town of Bogoso, Ghana. Through another 90% owned subsidiary, Golden Star (Wassa) Limited (GSWL), the company owns and operates the Wassa open-pit gold mine and carbon-in-leach processing plant (Wassa), located approximately 35 kilometers east of Bogoso/Prestea. The company also holds interests in various gold exploration projects in Ghana and elsewhere in West Africa, including Sierra Leone, Burkina Faso, Niger, and Cote d'Ivoire, and holds exploration properties in South America.

OPERATING PROPERTIES

The Bogoso/Prestea Gold Mine

Bogoso/Prestea consists of a gold mining and processing operation located along the Ashanti Trend in western Ghana, approximately 35 kilometers northwest of the town of Tarkwa.

Mampon—The Mampon deposit is located approximately 35 kilometers north of the Bogoso processing plant. Mampon is an undeveloped gold deposit with, as of December 31, 2009, an estimated 1.2 million tonnes of probable mineral reserves.

Pampe—The Pampe deposit is located approximately 19 kilometers west of the Bogoso processing plants. As of December 31, 2009, the company had estimated a probable mineral reserve of 1.5 million tones.

Prestea South—This property is located 20 kilometers south of the Bogoso/Prestea processing plants.

The Wassa Gold Mine

The company own and operates the Wassa gold mine located approximately 35 kilometers east of Bogoso/Prestea in southwest Ghana. It also owns and operates the Hwini-Butre and Benso mines (HBB properties) located 80 and 50 kilometers, respectively, south of Wassa. As of December 31, 2009, Wassa, including the HBB properties, had proven and probable mineral reserves of 17.1 million tones.

DEVELOPMENT PROPERTIES

Prestea South Properties: The Prestea South project is located on the Ashanti Trend, southwest of the town of Prestea and approximately 20 kilometers southeast of the Bogoso processing plants. As of December 31, 2009, the Prestea South properties had total proven and probable mineral reserves of 4.6 million tonnes.

EXPLORATION STAGE PROPERTIES IN GHANA

Prestea Underground: The Prestea Underground is an inactive underground gold mine located to the south of Bogoso and adjacent to the town of Prestea. The property consists of two useable access shafts and underground workings and support facilities.

Akropong Trend Properties: The Akropong properties are located along a fault structure which parallels the Ashanti Trend and is located approximately 20 kilometers to the west of its Bogoso processing plant.

Dunkwa Properties: The Dunkwa Properties, which are located directly north of its Bogoso Mining lease, consist of two prospecting licenses, Mansiso and Asikuma, the latter hosting its Mampon ore deposit.

OTHER EXPLORATION STAGE PROPERTIES IN AFRICA

African Aura Mining (Mano River) Joint Venture, Sierra Leone: The company has a 51% interest in the Sonfon property.

Cote d'Ivoire: The company's Ameleki and Abengourou concessions are located in the southeastern portion of Cote d'Ivoire adjacent to the Ghanaian border along northeast trending structures located to the west of the Sefwi greenstone belt in Ghana.

Burkina Faso: The company holds a 90% beneficial interest in the Goulagou and adjoining Rounga gold properties, with a local Burkina Faso partner owning a 10% interest. The 2 properties are located approximately 100 kilometers west of Ouagadougou. In addition to the Goulagou and Rounga concessions, Golden Star Burkina Faso also holds three other licenses.

EXPLORATION STAGE PROPERTIES IN SOUTH AMERICA

Saramacca Property: The Saramacca property, located in Suriname, consists of 3 concessions totaling 536 square kilometers. During 2009, Newmont earned a 51% interest in the Saramacca project.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
