The Goldeye Explorations Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Goldeye Explorations Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Goldeye Explorations Ltd. business.

### **About Goldeye Explorations Ltd.**

Goldeye Explorations Limited, a development stage company, engages in the acquisition, exploration and development of properties for the mining of precious and base metals. The company has properties in Ontario (Tyrrell, McFaulds Lake, Gold Rock, Fawcett/Leonard, Bryce, Sandy Lake), British Columbia (Todd Creek), and central Chile (Sonia/Puma).

#### **Mineral Properties**

**Sonia-Puma, Chile:** The company has entered into an option agreement with Olympus Explorations, Inc. (Olympus) to acquire a 100% interest in 16 mineral claims located in Region V, central Chile. It earned a 50% interest in the claims. The Sonia property consists of 16 mining concessions totaling 3,860 hectares, whereas the nearby Puma project comprises four exploration concessions totaling 1,200 hectares.

**Todd Creek:** The company has optioned the Todd Creek gold-copper property, which comprises 30 mineral claims covering 12,222 hectares. It has an option to acquire a 100% interest in the claims. The company entered into an option agreement with Polar Mining Corp. Polar can earn a 50% interest in the Todd Creek property. In April 2008, the company and Polar agreed to granting to Intuitive Exploration, Inc. (NTX), a right

and option to earn up to a 70% ownership interest in the Todd Creek Property located near Stewart in northwestern British Columbia. In August 2007, a 2,815 meter, 12 hole, drill program was completed.

**Tyrrell:** The company owns 100% of a total of 192 claim units in Tyrrell Township. The company has also entered into option agreements to acquire an undivided 100% interest in an additional 10 unpatented mining claims in Tyrrell Township, the Athena and Gold Pit claims. The Tyrrell project hosts the Hydro Creek and Big Dome mineralized zones.

**Tyrrell, Temex Joint Venture:** The company entered into an agreement with Temex Resources Corp., whereby it earned a 50% interest in 40 claims in the Tyrrell Township area. As of December 31, 2007, a total of 3,185 meters had been drilled on the property.

**Fawcett and Leonard Townships:** This property comprises 42 claims covering 5,888 hectares, located approximately 95 kilometres south of Timmins, Ontario. The company's claims in northwestern Fawcett Township border on three sides those of Ursa Major's 40-claim unit property that hosts the Tree nickel deposit.

**Gold Rock:** The company holds 8 claims totaling 9 claims covering 576 hectares at Gold Rock, an historic gold mining camp with geology similar to that at Yellowknife. During 2007, the company entered into an option agreement to grant Bridgeport Ventures, Inc. (Bridgeport) the option to acquire up to a 100% interest in the Gold Rock property.

**Bryce Township:** The company has an option agreement to acquire a 100% interest in 21 leased mining claims located in Bryce Township, Ontario.

**Sandy Lake:** The Sandy Lake claims are held 100% by the company, which are located 220 kilometers north of Red Lake, Ontario.

**McFaulds Lake:** The company, in conjunction with 50:50 Joint Venture Partner Tribute Minerals, Inc., staked 14 claims covering 3488 hectares in three blocks. The claims are located along the 'Ring of Fire' approximately 45 kilometers west of the Double Eagle discovery. The Joint Venture partners have acquired a total of 80 claims covering 17,792 hectares in 9 blocks covering various airborne magnetic anomalies.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
