The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Greater Atlantic Financial Corp. business.

### **About Greater Atlantic Financial Corp.**

Greater Atlantic Financial Corp. operates as the savings and loan holding company for Greater Atlantic Bank. The company offers traditional banking services to customers through its bank branches located in the Greater Washington, DC metropolitan area. It has established the Greater Atlantic Capital Trust I (Trust) to issue certain convertible preferred securities.

#### **Lending Activities**

**One- to Four-Family Mortgage Lending:** The Bank offers both fixed-rate and adjustable-rate mortgage (ARM) loans secured by single-family residences, which includes real property containing from one to four residences.

**Construction and Development Lending:** The Bank originates construction and development loans primarily to finance the construction of one- to four-family, owner-occupied residential real estate properties located in its primary market area. The Bank also originates land loans to local contractors and developers for the purpose of making improvements thereon, including small residential subdivisions in its primary market area or for the purpose of holding or developing land for sale.

**Multi-Family and Commercial Real Estate Lending:** The Bank originates multi-family and commercial real estate loans secured by five or more unit apartment buildings and properties used for business purposes, such as small office buildings or retail facilities located primarily in its market area.

**Commercial Business Lending:** The Bank makes commercial business loans primarily in its market area to various professionals, sole proprietorships, and small businesses. It offers various commercial lending products, including term loans for fixed assets and working capital, revolving lines of credit and letters of credit.

**Consumer Lending:** The Bank originates home equity loans, home equity lines of credit, secured and unsecured personal loans, and loans on new and used automobiles. Other types of consumer loans consisted primarily of secured and unsecured personal loans and loans on new and used automobiles.

## Deposits

The Bank's deposit instruments include savings accounts; NOW and money market accounts; certificates of deposit; and non interest-bearing deposits, such as demand deposits.

## Investment Activities

As of September 30, 2008, the Bank's investment portfolio included securities backed or guaranteed by the United States Government through the SBA, Federal National Mortgage Association (FNMA) notes, Federal Home Loan Mortgage Corporation (FHLMC) notes, and Government National Mortgage Association (GNMA) notes.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
