Such information creates your awareness about principal trends of Greens Worldwide Incorporated business.

About Greens Worldwide Incorporated

Greens Worldwide Incorporated engages in the production and management of golf tournaments. The company operates a professional golf tour at tournaments throughout the United States. Through its wholly owned subsidiary, U.S. Pro Golf Tour, the company operates an intermediary professional golf tour conducting events for former PGA Tour professionals preparing for the Champions Tour, non-exempt professionals on the Champions Tour, and celebrity challengers and professionals 18 years old and up preparing for the PGA Tour.

The company also conducts a Pro Net competition for players of all skill levels 18 years of age and older. The company's tournaments are week-long events with Junior Clinics, pro-ams, entertainment, leader boards and hospitality, with local market charities benefiting from the event. Events have been televised on The Golf Channel through the Tour's show, '54 Holes to Sunday' and in 2006 would be televised on Fox Sports Net.

The U.S. Pro Golf Tour has all the amenities of the PGA Tour, including electronic leader boards, official scoreboard, real-time scoring, hospitality center, gallery and national television coverage on the Golf Channel.

In August 2005, the company entered into an Agreement for an Asset Purchase with

U.S. Pro Golf League, Inc. Pursuant to the terms of the Agreement, U.S. Pro Golf League, Inc purchased all of the company's right, title, and interest in and to all of its assets used exclusively in the League.

In October 2005, the company entered into an Asset Purchase Agreement with BreakThru Media, Inc., which is engaged in the business of marketing, designing and producing interactive CD Rom products. Pursuant to the Asset Purchase Agreement the company acquired all of the right, title, and interest in an to all the assets of BreakThru.

54 Holes to Sunday

54 Holes to Sunday is an inside-the-ropes highlights show of its events. The company conducts tour level events for players of all ages and skill levels, former PGA and Champions Tour professionals, and celebrities. 54 Holes to Sunday, allows viewers to follow these players as they play in various planned U.S. tour stops and offers an up close look at life on the Tour for players and golfers from all walks of life. '54's cameras focus on the action, to bring viewers the highlights of golfers of all skill levels competing in a PGA Tour atmosphere. In addition, '54' provides viewers with the personal stories, triumphs and tragedies of the golfers.

The company offers three different memberships: Full U.S. Pro Golf Tour Card Membership; U.S. Pro Golf Tour Associate Membership; and U.S. Pro Golf Tour Corporate Membership.

Marketing and Sales

The company has established strategic relationships with Fox Sports, the Golf Channel, Worldwide Marketing and Media Group. Through these partners the company markets out television programming and its sponsorships.

History

Greens Worldwide Incorporated was incorporated in 2005.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
