Abstracts

Group 1 Automotive Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Group 1 Automotive Inc. and its competitors. This provides our Clients with a clear understanding of Group 1 Automotive Inc. position in the Retail Industry.

The report contains detailed information about Group 1 Automotive Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Group 1 Automotive Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Group 1 Automotive Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Group 1 Automotive Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Group 1 Automotive Inc. business.

About Group 1 Automotive Inc.

Group 1 Automotive, Inc. operates in the automotive retail industry. The company, through its operating subsidiaries, markets and sells a range of automotive products and services, including new and used vehicles and related financing, vehicle maintenance and repair services, replacement parts, warranty, insurance and extended service contracts.

Dealership Operations

As of December 31, 2009, the company owned and operated 124 franchises at 95 dealership locations and 22 collision service centers in the United States of America and 6 franchises at 3 dealerships and 2 collision centers in the United Kingdom. The company's operations are primarily located in major metropolitan areas in the states of Alabama, California, Florida, Georgia, Kansas, Louisiana, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, Oklahoma, South Carolina and Texas in the U.S.; and in the towns of Brighton, Hailsham, and Worthing in the U.K.

New Vehicle Sales: In 2009, the company sold or leased 83,182 new vehicles representing 31 brands in retail transactions at its dealerships.

Used Vehicle Sales: The company sells used vehicles at each of its franchised dealerships. In 2009, it sold or leased 54,067 used vehicles at its dealerships, and sold 27,793 used vehicles in wholesale markets. The company's new vehicle operations provide its used vehicle operations with a supply of trade-ins and off-lease vehicles. Its dealerships supplement their used vehicle inventory from purchases at auctions, including manufacturer-sponsored auctions available only to franchised dealers, and from wholesalers.

Parts and Service Sales: The company sells replacement parts and provides maintenance and repair services at each of its franchised dealerships and provides collision repair services at the 24 collision centers that it operates. It performs both warranty and non-warranty service works at its dealerships, primarily for the vehicle brand(s) sold at a particular dealership. The company's parts and service departments also perform used vehicle reconditioning and new vehicle preparation services for which they realize a profit when a vehicle is sold to a retail customer.

Finance and Insurance Sales: The company offers various third-party finance, vehicle service, and insurance products. It offers all of its products on menus that display pricing and other information, allowing customers to choose the products that suit their needs. The company arranges third-party purchase and lease financing for its customers. These third-party finance companies include manufacturers' captive finance companies, selected commercial banks and various other third-parties, including credit unions and regional auto finance companies.

New and Used Vehicle Inventory Financing: The company's dealerships finance their inventory purchases through the floorplan portion of its revolving credit facility and a separate floorplan credit facility arrangement with one of the manufacturer, Ford, that the company represents.

History

Group 1 Automotive, Inc. was founded in 1995.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?
Rare?
Costly to imitate?
Organized properly?
