The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Grupo Prisa SA business.

About Grupo Prisa SA

Grupo Prisa operates as a Spanish and Portuguese-language media group in the fields of education, information, and entertainment.

The company, with presence in 22 countries, reaches approximately 50 million readers, listeners, viewers, and Internet users through its global brands El País, 40 Principales, Santillana, and Alfaguara.

Operations

The company's activities are organized into four main areas: Press, Radio, Education-Publishing, and Audiovisual, complemented by the Digital activity.

Press

The Press activities include the El País, As, Cinco Días, and magazine businesses, as well as the International Press business. El País is a news paper in Spain, which is printed at production plants in Madrid, Barcelona, Valencia, Seville, Lugo, Las Palmas, Burgos, and Palma de Mallorca, as well as in Germany, Belgium, Mexico, and Argentina.

The company's magazine business, Progresa (Promotora General de Revistas), produces 30 titles making it market leader in this sector in Spain. Titles include Cinemanía, Rolling Stone, Gentleman, La Revista 40, Claves de la Razón Práctica, Car, Business Traveller (Cinco Días), Europa (Air Europa), and Art&Co, the official magazine of the international art fair ARCO. It also publishes the El País Annual and the wine review Anuario de los Vinos. Progresa is present in the Portuguese market through Media Capital Edições (MCE), which publishes seven magazines, including Lux (weekly celebrity news), LuxWoman (monthly women's title), y Maxmen (monthly men's title), and specialist titles such as Revista de Vinhos (wine), Casas de Portugal (home and decoration), and Briefing (advertising). MCE also publishes newsletters, corporate publications, and directories; and organizes and manages trade fairs. The company is also active in the print media in France, Portugal, Bolivia, and Mexico.

Radio

The Radio activities encompass the Radio business in Spain and abroad, as well as the Gran Vía Musical business.

The company's 80% owned subsidiary, Unión Radio, is a Spanish-language radio group with approximately 24 million listeners and approximately 1.250 owned and associated stations throughout Spain, the United States, Mexico, Colombia, Costa Rica, Panama, Argentina, and Chile. In Spain, Unión Radio's primary station is Cadena SER which boasts 481 stations -both directly owned and associates- broadcasting to the general public. There are also five music stations: 40 Principales, Cadena Dial, M-80, Radiolé, and Máxima FM.

The company's radio activities in the Americas are grouped into the holding GLR (Grupo Latino de Radio). In the U.S., the radio group operates through two Spanish-language broadcasters, one in Los Angeles and throughout southern California. In Mexico, Unión Radio operates through Radiópolis, 50% owned by Televisa and managed by Unión Radio. Radiópolis, through its 88 stations, either owned directly or affiliates, broadcasts in three main radio segments: W Radio for talk radio, Besame, and 40 Principales for music radio. These formats are reproduced throughout Panama, Costa Rica, Chile, Argentina, and Colombia. Radio Caracol produces and distributes approximately 10 different radio formats of talk and music radio. Unión Radio also owns Ibero Americana Radio Chile, which owns 140 stations and approximately 8 radio formats.

The company's broadcasting interests in the Portuguese radio market are represented by Media Capital Radio (MCR), a portfolio which includes the mainstream station Rádio Clube and the music stations Rádio Comercial, Cidade FM, Best Rock FM, Romantica FM, and M80. Gran Vía Musical (GVM) is responsible for the promotion and production of musical events and bookings through Planet Events, as well as rights management with Nova and Lyrics & Music.

Education-Publishing

The Education-Publishing activities comprise the Santillana business in Spain, Portugal, the United States, and South America. In the field of higher education, the postgraduate center, Instituto Universitario de Posgrado (IUP), specialized in masters and postgraduate degrees through online learning, reached 7,000 students in 45 countries.

Grupo Santillana is responsible f

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
