pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Grupo Radio Centro, S.A.B. de C.V. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Grupo Radio Centro, S.A.B. de C.V. business.

About Grupo Radio Centro, S.A.B. de C.V.

Grupo Radio Centro, S.A.B. de C.V. operates as a radio-broadcasting company in Mexico. The company's principal activities are the production and broadcasting of music, entertainment, news, and special event programs.

The company engages primarily in sale of commercial airtime to advertising agencies and businesses. In Mexico, it owns eight AM and five FM radio stations. It manages and operates an additional FM station. Of these 14 radio stations, it operates 5 AM and 6 FM stations in Mexico City and 1 AM station in both Guadalajara and Monterrey. The remaining AM radio station in Mexico City is managed and operated by a third party pursuant to an operating agreement. The company manages 11 radio stations it operates in Mexico City as a portfolio.

In addition to its radio broadcasting activities, the company, under the trade name Organización Impulsora de Radio (OIR), acts as the national sales representative for, and provides programming to, a network of affiliates in Mexico. As of December 31, 2009, the company had 107 affiliates in 75 cities throughout Mexico.

In 2009, the company entered into an agreement with Emmis Communications Corporation (Emmis), a U.S. radio broadcasting company. It agreed to provide programming to, and sell advertising time on, KXOS-FM for up to seven years. KXOS-FM is a radio station broadcasting in Los Angeles, California, on the 93.9 FM frequency. It operates KXOS-FM through its subsidiary, Grupo Radio Centro LA, LLC (GRC-LA).

Programming

The company produces all of the programming for the stations it owns or operates. It also provides programming to its network of affiliates. The programming it produces includes playing recorded music, covering live music events (such as concerts), and airing special musical programs, and news and talk show programs. Through its Noticentro news division, the company produces daily news programs consisting of three-minute updates and 10-minute summaries of local, national, and international news that are broadcast through Formato 21, its 24-hour all-news station, and the majority of its other stations in Mexico City.

The company has 18 production studios in which musical material, advertisements, informational messages, news and promotional spots are recorded on hard drive, compact disk, and DVD-audio through the Maestro Automation System. This system permits the direct transmission of audio recordings to its 35 workstations. It also maintains 13 on-air studios.

The company's news division uses the news room system, which enables news writers to provide radio announcers with information directly through scrolling text that runs across a flat-panel screen while the announcers are on air. The system is used primarily in the Formato 21 radio station, but it also provides information to news centers in other radio stations.

Customers

The company's major customers include Nueva Wal Mart de Mexico, S.A.B. de C.V. and Tiendas Comercial Mexicana, S.A.B. de C.V. The companies comprising Grupo Cifra and Grupo Carso also are principal customers.

Competition

The company's competitors include Grupo Acir; Televisa Radio; NRM Comunicaciones; Grupo Radio Fórmula; Grupo Imagen; and MVS Radio.

History

Grupo Radio Centro, S.A.B. de C.V. was founded in 1946.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
