## Abstracts

Gryphon Gold Corporation Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Gryphon Gold Corporation and its competitors. This provides our Clients with a clear understanding of Gryphon Gold Corporation position in the Industry.

The report contains detailed information about Gryphon Gold Corporation that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Gryphon Gold Corporation. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Gryphon Gold Corporation financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Gryphon Gold Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Gryphon Gold Corporation business.

## **About Gryphon Gold Corporation**

Gryphon Gold Corporation, together with its subsidiaries, engages in the acquisition, exploration, and development of gold properties primarily in Nevada. It has interests in the Borealis property located in Mineral County in southwest Nevada.

### **Properties**

**Borealis Property:** The Borealis Property covers approximately 15,020 acres. It comprises 751 unpatented mining claims of approximately 20 acres each, totaling approximately 15,020 acres, and one unpatented millsite claim of approximately 5 acres. The company's rights, through Borealis Mining as the owner or lessee of the claims, allow it to explore, develop, and mine the Borealis Property.

### **Nevada Eagle Properties**

Nevada Eagle has interests in approximately 63 gold properties covering approximately 70 square miles of gold trends in Nevada. Twenty-four of these properties are in the Walker Lane belt and add to Gryphon's inventory of volcanogenic hosted gold mineralization. Seven of the properties are in the Cortez Trend, seven in the Austin-Lovelock Trend, two in the Carlin Trend, and the balance are situations throughout

Nevada with a few in contiguous states.

**Golden Arrow:** The Golden Arrow property is located approximately 39 miles east of Tonopah within the Golden Arrow mining district of southern Nye County, Nevada, U.S.A., at geographic co-ordinates 37deg. 59min. North latitude by 116deg. 37min. West longitude. It contains 196 contiguous unpatented lode mining claims covering approximately 4,051 acres.

**Regent:** The Regent property is located approximately 38 miles southeast of Fallon within the Rawhide mining district of northern Mineral County, Nevada, U.S.A. It comprises 110 contiguous unpatented lode mining claims covering approximately 2,272 acres.

**Monte Cristo:** The Monte Cristo property is located approximately 25 miles west of Tonopah within the Gilbert mining district of northern Esmeralda County, Nevada, U.S.A. It comprises 239 contiguous unpatented lode mining claims covering approximately 4,731 acres.

**Rosebud:** The Rosebud property is located approximately 48 miles west of Winnemucca within the Rosebud mining district of northern Pershing County, Nevada, U.S.A. It comprises 54 contiguous unpatented lode mining claims covering approximately 1,115 acres.

#### Other Nevada Eagle Properties

Nevada Eagle Resources controls approximately 59 other exploration properties in Nevada, southeastern California and western Utah. These individual properties range in size from one mining claim to 129 mining claims for a grand total of 24,792 acres. Target commodity types are gold and gold/silver and also include copper/molybdenum, lead/zinc/copper, and barite. These target metals are found in various geologic environments, including volcanic-hosted epithermal bonanza veins and stock works, sediment hosted replacement and stock work deposits, granite-hosted mesothermal quartz veins and porphyry related quartz stock works and related deposits.

#### History

Gryphon Gold Corporation was incorporated in 2003.

The above Company Fundamental Report is a half-ready report and contents are

subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
