The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Guoco Group Ltd. business.

About Guoco Group Ltd.

Guoco Group Limited, an investment holding company, provides principal investment, property development and investment, hospitality and leisure, and financial services. The company operates as a subsidiary of Guoline Overseas Limited.

Principal Investment

The company's principal investment business includes equity and direct investments, as well as treasury operations. Its investment infrastructure includes synergistic analytical tools, risk management system, as well as management information system. Its treasury division focuses on global economic conditions, forex and interest rate trends, and strategic trading ideas. It also manages financial exposures of the company and hedging proposals.

Property Development and Investment

GuocoLand Limited (GLL) is the company's property arm and operates in Singapore, China, Malaysia, and Vietnam. As of June 30, 2009, the company developed and sold 29 residential projects in Singapore, producing approximately 8,300 apartments and homes. In China, GLL has a land bank of approximately two million square metres in

the cities of Beijing, Shanghai, Nanjing, and Tianjin. In Malaysia, GLL has established an embedded property operation through its Malaysia subsidiary, GuocoLand (Malaysia) Berhad, with property development, property investment, as well as hotel and resort holdings business.

Hospitality and Leisure Business

GuocoLeisure Limited (GL) is the company's subsidiary in the hospitality and leisure business. GL's operating assets include the Guoman Hotels group (Guoman) and Clermont Leisure (U.K.) Limited (Clermont Leisure) in the United Kingdom and rights to a royalty stream from the production of oil and gas in the Bass Strait in Australia.

Guoman owns, leases, or manages 37 hotels (8,400 rooms) in the United Kingdom under two brands, the international deluxe Guoman brand, which includes four Central London landmark hotels with approximately 2,300 rooms, and the four-star 'Thistle' brand in 33 properties with 6,100 rooms in London and the provinces. In the Asia Guoman manages two hotels in Malaysia under the Thistle brand standard. Clermont Leisure is a licensed casino operator in the United Kingdom. It also operates the prestigious Clermont Club in Mayfair, London.

Financial Services

The company holds an interest in the Hong Leong Financial Group Berhad (HLFG), whose subsidiaries include Hong Leong Bank Berhad, which has 186 branches in Malaysia with overseas branches in Singapore and Hong Kong and provides services in personal financial services, treasury, corporate, and commercial banking; Hong Leong Islamic Bank Berhad focuses on the Syariah-compliant commercial banking, Islamic wholesale, and investment banking, as well as Islamic wealth management; Hong Leong Tokio Marine Takaful Berhad focuses on the takaful insurance; HLG Capital Berhad engages in the investment banking, stockbroking, futures broking, asset management, and unit trust; and Hong Leong Assurance Berhad provides both life and general insurance services in Malaysia and in Hong Kong through its fellow subsidiary, Hong Leong Insurance (Asia) Limited.

The company also operates in stock and futures broking, and corporate advisory business in Hong Kong through its wholly-owned subsidiaries, GuocoCapital Limited (formerly Dao Heng Securities Limited) and GuocoCommodities Limited (formerly Dao Heng Commodities Limited).

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
