The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Monster Beverage Corporation business.

About Monster Beverage Corporation

Hansen Natural Corporation, through its wholly owned subsidiaries, engages in the development, market, sell and distribute 'alternative' beverage category natural sodas, fruit juices and juice drinks, energy drinks and energy sports drinks, fruit juice smoothies and 'functional' drinks, non-carbonated ready-to-drink iced teas, children's multi-vitamin juice drinks, Junior Juice juices and flavored sparkling beverages under the Hansen's brand name.

The company develops, markets, sells, and distributes energy drinks under the following brand names: Monster Energy; Monster Hitman Energy Shooter; and Lost Energy brand names, as well as Rumba, Samba, and Tango brand energy juices. The company markets, sells, and distributes the Java Monster line of non-carbonated dairy based coffee and energy drinks. The company markets, sells, and distributes natural sodas, premium natural sodas with supplements, organic natural sodas, seltzer waters, and energy drinks under the Blue Sky brand name. It markets, sells, and distributes enhanced water beverages under the Vidration brand name.

In 2009 the company introduced the following products: Monster Energy Import energy drink, which is packaged in 550 ml Ball Re-sealable End (BRE) aluminum cans

manufactured in Europe and imported into the United States; X-Presso Monster-Hammer, a non-carbonated espresso energy drink packaged in 6.75-ounce aluminum cans manufactured in Europe and imported into the United States; Nitrous Monster Energy, a line of energy drinks which is carbonated and contains nitrous oxide, and is packaged in re-sealable 12-ounce sleek aluminum cap-cans, in three variants; Monster Energy Dub Edition energy drink, which is packaged in 32-ounce aluminum cans; Hansen's Natural Lo-Cal, a line of all natural, low calorie 64-ounce juice cocktails in four flavors; SELF Beauty Elixir by Hansen's, a line of a low-calorie, functional, ready-to-drink beauty beverages infused with an essential blend of vitamins, minerals, natural fruit & botanical extracts with antioxidants; Blue Sky Free Sodas, a line of all natural, zero calorie sodas sweetened with Truvia brand stevia extract, an all natural sweetener; and Peace Tea, a line of ready-to-drink iced teas in 23-ounce aluminum cans.

The company's Monster Energy brand energy drinks include Monster Energy energy drinks, lo-carb Monster Energy energy drinks, Monster Energy Assault energy drinks, Monster Energy Khaos energy drinks, Monster Energy M-80 energy drinks (named RIPPER in certain countries), Monster Energy Heavy Metal energy drinks, Monster Energy MIXXD energy drinks, Monster Energy Import energy drinks, and Monster Energy Dub Edition energy drinks.

Segments

The company has two segments: Direct Store Delivery (DSD), whose principal products comprise primarily energy drinks; and Warehouse (Warehouse), whose principal products comprise juice based and soda beverages. The DSD segment develops, markets, and sells products primarily through an exclusive distributor network, whereas the Warehouse segment develops, markets, and sells products primarily directly to retailers.

Products – DSD segment

Monster Energy Drinks - The company offers a new carbonated energy drink under the Monster Energy brand name in 16-ounce cans. The company's Monster Energy drinks contain different types and levels of supplements than its Hansen's energy drinks and are marketed through its full service distributor network. The company offers the following products: under the Monster Energy brand energy drink product line: Monster Energy, lo-carb Monster Energy, Monster Energy Assault, Monster Energy Khaos, Monster Energy M-80 (named 'RIPPER' in certain countries), Monster Energy Heavy Metal and Monster Energy MIXXD. The company package its Monster Energy drinks in

8.3-ounce and/or 16-ounce and/or 24-ounce and/or 32-ounce and/or 500ml aluminum cans and/or 500ml glass bottles.

Java Monster Coffee + Energy Drinks - a line of non-carbonated dairy based coffee + energy drinks under the Java Monster brand name. The company offers the following products: under the Java Monster product line: Java Monster Originale, Java Monster Loca Moca, Java Monst

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
