Such information creates your awareness about principal trends of 180 Degree Capital Corp. business.

About 180 Degree Capital Corp.

Harris & Harris Group, Inc., a venture capital company, operates as a business development company. The company makes initial venture capital investments in ‘tiny technology,’ which is defined as microsystems, microelectromechanical systems (MEMS) and nanotechnology.

Investments

The company invests in types of assets include:

Equity, Equity-Related Securities and Debt with Equity Features

The company invests in equity, equity-related securities and debt with equity features. These securities include common stock, preferred stock, debt instruments convertible into common or preferred stock, limited partnership interests, other beneficial ownership interests and warrants, options or other rights to acquire any of the foregoing. It makes investments in companies with operating histories that are unprofitable or marginally profitable, that have negative net worth or that are involved in bankruptcy or reorganization proceedings. In addition, it makes investments in connection with the acquisition or divestiture of companies or divisions of companies. The company also

invests in publicly traded securities of whatever nature, including small, emerging growth companies.

Venture Capital Investments

The company defines venture capital as the money and resources made available to start-up firms and small businesses. The company intends its venture capital investments to be major in development stage or start-up businesses. All of its long-term venture capital investments are in thinly capitalized, unproven, small companies focused on risky technologies.

The company owns 100 percent of the securities of a start-up investment for a period of time and controls the company for a substantial period. In connection with venture capital investments, the company participates in providing various services to its portfolio companies, including: recruiting management; formulating operating strategies; formulating intellectual property strategies; assisting in financial planning; providing management in the initial start-up stages; and establishing corporate goals.

Intellectual Property

The company’s form of investment might be: funding research and development in the development of a technology; obtaining licensing rights to intellectual property or patents; acquiring intellectual property or patents; or forming and funding companies or joint ventures to commercialize further intellectual property.

Debt Obligations

The company holds debt securities for income and as a reserve pending more speculative investments. Debt obligations include U.S. government and government agency securities, commercial paper, bankers' acceptances, receivables or other asset-based financing, notes, bonds, debentures, or other debt obligations of any nature and repurchase agreements related to these securities. The company invests in debt obligations of companies with operating histories that are unprofitable or marginally profitable, that have negative net worth or are involved in bankruptcy or reorganization proceedings, or that are start-up or development stage entities. In addition, it participates in the acquisition or divestiture of companies or divisions of companies through issuance or receipt of debt obligations.

Foreign Securities

+44 20 8123 2220
info@marketpublishers.com

The company makes investments in securities of issuers whose principal operations are conducted outside the United States, and whose earnings and securities are stated in foreign currency. The company's investments in the stocks of companies organized outside the U.S. would be limited to 30 percent of assets, as it must invest approximately 70 percent of its assets in 'qualifying assets' and foreign companies are not 'qualifying assets.'

Subsidiaries

The company's wholly owned subsidiary includes Harris & Harris Enterprises, Inc. (Enterprises). Enterprises is a partner in Harris Partners I, L.P. Harris Partners I, L.P, is a limited partnership and owns its interest in AlphaSimplex Group, LLC. The partners of Harris Partners I, L.P., are Enterprises (sole general partner) and Harris & Harris Group, Inc. (sole limited partner).

History

Harris & Harris Group, Inc. was incorporated in 1981.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

+44 20 8123 2220
info@marketpublishers.com

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

+44 20 8123 2220
info@marketpublishers.com

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources
- Financial
- Physical
- Technological
- Organizational

Intangible resources
- Human
- Innovation and Creativity

+44 20 8123 2220
info@marketpublishers.com

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company’s competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
