The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Hartford Financial Services Group Inc. business.

About Hartford Financial Services Group Inc.

The Hartford Financial Services Group, Inc., an insurance and financial services company, provides investment products, individual life, group life and group disability insurance products, and property and casualty insurance products in the United States of America.

The company maintains a retail mutual fund operation, whereby the company, through wholly-owned subsidiaries, provides investment management and administrative services to series of The Hartford Mutual Funds, Inc.; The Hartford Mutual Funds II, Inc.; and The Hartford Income Shares Fund, Inc. (collectively, mutual funds), consisting of 52 mutual funds and 1 closed-end fund, as of December 31, 2009.

Segments

The company is organized into two major operations, Life; and Property & Casualty.

Life Segments

Life is organized into six reporting segments, Retail Products Group (Retail), Individual Life, Group Benefits, Retirement Plans, International, and Institutional Solutions Group (Institutional).

Life Principal Products

Retail provides variable and fixed individual annuities with living and death benefit guarantees, mutual funds and 529 plans in the United States. In October 2009, the company launched a new variable annuity product designed to meet customer needs for growth and income within the risk tolerances of The Hartford.

Individual Life provides variable universal life, universal life, interest sensitive whole life and term life insurance products to affluent, emerging affluent and business life insurance clients.

Group Benefits provides group life, accident and disability coverage, group retiree health and voluntary benefits to individual members of employer groups, associations, affinity groups and financial institutions. Group Benefits offers disability underwriting, administration, claims processing services and reinsurance to other insurers and self-funded employer plans. Policies are typically sold with one-, two- or three-year rate guarantees depending upon the product.

Retirement Plans provides retirement products and services, including asset management and plan administration, to small and medium-size corporations pursuant to Section 401(k) of the Internal Revenue Code of 1986, as amended (401(k)). Retirement also provides retirement products and services, including asset management and plan administration, to municipalities and not-for-profit organizations pursuant to Section 457 and 403(b) of the Internal Revenue Code of 1986, as amended (457 and 403(b)).

International, with operations in Japan, Brazil, Ireland, Canada, and the United Kingdom, provides investments, retirement savings, and other insurance and savings products to individuals and groups outside the United States.

Institutional manages private placement life insurance (PPLI), mutual funds, income annuities, and certain institutional annuities.

Property & Casualty Segments

Property & Casualty is organized into five reporting segments: the underwriting segments of Personal Lines, Small Commercial, Middle Market, Specialty Commercial, and the Other Operations segment.

Property & Casualty Principal Products

Property & Casualty provides workers' compensation, property, automobile, liability, umbrella, specialty casualty, marine, livestock and fidelity and surety coverages to commercial accounts primarily throughout the United States; professional liability coverage and directors and officers liability coverage; automobile, homeowners, and home-based business coverage to individuals throughout the United States; and insurance-related services.

Personal Lines provides standard automobile, homeowners, and home-based business coverages to individuals across the United States, including a special program designed for members of AARP. Personal Lines also operates a member contact center for health insurance products offered through the AARP Health program.

Small Commercial and Middle Market provide workers' compensation, property, automobile, liability and umbrella coverages under different products, primarily throughout the United States. In Small Commercial, these coverages are sold together as part of a single multi-peril package policy called Spectrum.

Specialty Commercial offers various customized insurance products and risk management services. Specialty Commercial provides standard commercial insurance products, including workers' compensation, automobile and liability coverages to large-sized companies. Specialty Commercial also provides professional liability, fidelity, surety and specialty casualty coverages. A significant portion of specialty casualty business, including workers' compensation business, is written through deductible programs where the insured typically provides collateral to support loss payments made within their deductible. The specialty casualty business also provides retrospectively-rated programs where the premiums are adjustable based on loss experience. Captive and Specialty Programs within Specialty Commercial, provides insurance products and services primarily to captive insurance companies, pools and self-insurance groups. In addition, Specialty Commercial provides third-party administrator services for claims administration, integrated benefits and loss control through Specialty Risk Services, LLC, a subsidiary of the company.

The Other Operations segment manages claims (and the associated reserves) related

to asbestos, environmental, and other exposures.

Acquisition

In 2009, the company acquired Federal Trust Corporation, a thrift holding company.

Significant Events

On September 16, 2010, Hartford Financial Services Group Inc. has launched a division in its southwest regional office in Dallas to provide property/casualty insurance and services to the renewable energy industry.

History

The Hartford Financial Services Group, Inc. was founded in 1810.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
