The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of HealthSpring Inc. business.

About HealthSpring Inc.

HealthSpring, Inc. operates as a managed care organization in the United States. The company primarily focuses on Medicare, the federal government-sponsored health insurance program for United States citizens aged 65 and older, qualifying disabled persons, and persons suffering from end-stage renal disease.

As of December 31, 2009, the company operated coordinated care Medicare Advantage plans in Alabama, Florida, Illinois, Mississippi, Tennessee, and Texas. Effective as of January 1, 2010, the company also commenced operations of Medicare Advantage plans in three counties in Northern Georgia. As of December 31, 2009, its Medicare Advantage plans had approximately 189,000 members.

Products and Services

The company also offers management services to independent physician associations in its Alabama, Tennessee, and Texas markets, including claims processing, provider relations, credentialing, reporting, and other general business office services.

Medicare Advantage Plans: The company's Medicare Advantage plans cover Medicare eligible members with benefits that are at least comparable to those offered under

traditional Medicare fee-for-service plans. Its plans include mental health benefits, vision and hearing benefits, transportation services, preventive health services, such as health and fitness programs, routine physicals, various health screenings, immunizations, chiropractic services, and mammograms. The company offers prescription drug benefits in accordance with Medicare Part D to Medicare Advantage plan members, in addition to continuing to provide other medical benefits.

The company offers various types of special needs zero premium, zero co-payment plans, or SNPs, to dual-eligible individuals, institutions, and a chronic care plan targeting individuals with chronic conditions such as diabetes in certain of its markets.

National Part D Plan: The company offers prescription drug benefits on a stand-alone basis in accordance with Medicare Part D in each of its markets. Under national PDP program, members pay a monthly premium depending upon their residence in the relevant CMS region. The plan offers national in-network prescription drug coverage that is subject to limitations in certain circumstances. The company's PDP uses a specific prescription drug formulary.

Medicare Plans

The company operates its health plans primarily through its health maintenance organization, or HMO, subsidiaries. The company has transitioned some of its health plan operations, including its PDP, to an accident and health insurance subsidiary, which is also regulated by state insurance departments. Management services provided to the regulated subsidiaries include negotiation, monitoring, and quality assurance of contracts with third party healthcare providers; medical management, credentialing, marketing, and product promotion; support services and administration; financial services; and claims processing and other general business office services.

Competition

The company's principal competitors include UnitedHealth Group, Humana, Inc., and Universal American Corporation.

History

HealthSpring, Inc. was founded in 2000.

The above Company Fundamental Report is a half-ready report and contents are

subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
