The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Heritage Commerce Corp. business.

### **About Heritage Commerce Corp.**

Heritage Commerce Corp. operates as the holding company for Heritage Bank of Commerce, which offers a range of banking services to small to medium sized businesses and their owners, managers, and employees residing in Santa Clara, Alameda, and Contra Costa counties in California. The company operates 10 full service branch offices.

#### **Lending Activities**

The company's lending activities include commercial, real estate, construction loans, and consumer loans. Its commercial loans are made for working capital, financing the purchase of equipment, or for other business purposes. Such loans include loans with maturities ranging from thirty days to one year and term loans, with maturities normally ranging from one to five years.

The company's real estate term loans consist primarily of loans made based on the borrower's cash flow and are secured by deeds of trust on commercial and residential property to provide a secondary source of repayment. Its real estate land and construction loans are primarily short term interim loans to finance the construction of commercial and single family residential properties.

The company makes consumer loans for the purpose of financing automobiles, various types of consumer goods, and other personal purposes. Additionally, it makes home equity lines of credit available to its clientele. It also engages in small business administration (SBA) lending.

### Deposits

The company offers a range of deposit products for retail and business banking markets, including checking accounts, interest-bearing transaction accounts, savings accounts, time deposits, and retirement accounts.

### Other Products

The company offers a multitude of other products and services to complement its lending and deposit services. These include cashier's checks, traveler's checks, bank-by-mail, ATM, night depository, safe deposit boxes, direct deposit, automated payroll services, electronic funds transfers, online banking, and other customary banking services. It operates ATMs at six different locations. The company offers remote deposit capture, automated clearing house origination, electronic data interchange, and check imaging.

### Investment Portfolio

As of December 31, 2009, the company's investment portfolio included the U.S. government sponsored entities; mortgage-backed securities — residential; and collateralized mortgage obligations — residential.

### History

Heritage Commerce Corp. was founded in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
