The Hertz Global Holdings, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Hertz Global Holdings, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Hertz Global Holdings, Inc. business.

### **About Hertz Global Holdings, Inc.**

Hertz Global Holdings, Inc., through its subsidiaries, engages in car and equipment rental businesses in the United States and Canada. The company accepts reservations for car rentals at approximately 8,100 locations in approximately 145 countries. It also rents equipment through 322 branches in the United States, Canada, France, Spain and China, as well as through its international licensees. The company operates in the global car rental industry and in the equipment rental industry.

#### Segments

The company's business consists of two segments: Car rental and Equipment rental.

#### Worldwide Car Rental

This segment maintains a network of company-operated car rental locations both in the United States and internationally. Its licensees and associates also operate rental locations in approximately 140 countries and jurisdictions, including the countries in which the company has company-operated rental locations.

The company rents various makes and models of cars, approximately all of which are the or previous year's models. It accepts reservations only for a class of vehicles, although it accepts reservations for specific makes and models of vehicles in its Prestige Collection luxury rental program, Hertz Fun Collection experiential rental program, Green Collection environmentally friendly rental program and leisure-oriented destinations. The company rents cars on an hourly (in select markets), daily, weekend, weekly, monthly or multi-month basis, with rental charges computed on a limited or unlimited mileage rate, or on a time rate plus a mileage charge.

The company also allows one-way rentals from and to certain locations. It has company-operated rental locations both in the United States and internationally. The international car rental operations locations, as of December 31, 2009, were France, Germany, Italy, the United Kingdom, Australia, Spain and Canada. The company also has company-operated rental locations in the Netherlands, Switzerland, Brazil, New Zealand, Puerto Rico, Belgium, Luxembourg, the Czech Republic, the Slovak Republic, China, and the U.S. Virgin Islands.

In 2008, the company introduced Connect by Hertz, a new global car-sharing service utilizing Eileo technology, which rents cars by the hour at two dozen locations in the U.S., Canada, and Europe. Connect by Hertz allows customers to sign up for the service and start renting cars by the hour.

In April 2009, the company completed the acquisition of certain assets of Advantage Rent A Car. Advantage is a brand for price-oriented customers at U.S. leisure travel destinations. As of December 31, 2009, the company had 24 corporate Advantage brand rental locations in the United States.

In April 2009, the company completed the acquisition of Eileo, S.A.S., or 'Eileo,' a Paris, France-based developer of car sharing technology.

During 2009, the company launched Rent2Buy, a new way to buy a used rental car, which operates in select states, including California and Hawaii.

In addition to its airport locations, the company operates off-airport locations offering car rental services to various customers. The company's off-airport rental customers include people wishing to rent cars closer to home for business or leisure purposes, as well as those needing to travel to or from airports. The company's off-airport customers also include people who have been referred by, or whose rental costs are being wholly or partially reimbursed by, insurance companies following accidents in which their cars

were damaged, those expecting to lease cars that are not yet available from their leasing companies and those needing cars while their vehicle is being repaired or is temporarily unavailable for other reasons; the company calls these customers 'replacement renters.'

**Competition:** In the United States, the company's principal car rental industry competitors are Avis Budget Group, Inc., which operates the Avis and Budget brands; Enterprise, which operates the National Car Rental, Alamo and Enterprise brands; and Dollar Thrifty Automotive Group, Inc., which operates the Dollar and Thrifty brands. The company, in Europe, competes with Avis Europe plc, whic

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
