Such information creates your awareness about principal trends of Hibernia Homestead Bancorp, Inc. business.

About Hibernia Homestead Bancorp, Inc.

Hibernia Homestead Bancorp, Inc. operates as the bank holding company for Hibernia Homestead Bank. Hibernia Homestead Bank is a community-oriented savings bank.

Hibernia Homestead Bank is primarily engaged in attracting deposits from the general public and using those funds to invest in loans and securities. The company's principal sources of funds are customer deposits, repayments of loans, maturities of investments and funds borrowed from outside sources, such as the FHLB of Dallas. These funds are primarily used for the origination of loans, including single-family residential first mortgage loans, commercial real estate loans, commercial and industrial loans, home equity loans and lines of credit, construction and land loans and other loans.

Market Area

The company conducts its operations through its main office in New Orleans, Louisiana located in Orleans Parish, one additional branch office in New Orleans and one branch office located in Metairie, Louisiana, which is in Jefferson Parish.

Lending Activities

One-to-Four Family Residential Real Estate Loans: A principal lending activity of the company is the origination of loans secured by single-family residences. As of December 31, 2009, its loan portfolio consisted of one-to-four family residential loans including both owner occupied and non-owner occupied properties.

Residential Construction and Land Loans: The company originates residential construction and land loans.

Residential Second Mortgage Loans and Lines of Credit: Hibernia Homestead Bank originates second mortgage residential loans and home equity lines of credit to finance minor renovations and repairs, as well as for other consumer or investment purposes. Home equity lines of credit have maturities of five years.

Commercial Real Estate Loans: The company's loan portfolio consists of commercial real estate loans, including both owner occupied and non-owner occupied properties.

Consumer Loans: The company originates consumer loans that have shorter terms and higher interest rates than residential first mortgage loans. The consumer loans offered by the company consist of home equity loans and loans secured by deposit accounts with the bank.

Investment Activities

As of December 31, 2009, the company's investment securities portfolio consisted of mortgage-backed securities, securities of U.S. government agencies, First National Bankers Bank (FNBB) stock and stock in FHLB of Dallas.

Deposits

The company's deposits include savings accounts, checking accounts, money market accounts, and certificates of deposit.

History

Hibernia Homestead Bancorp, Inc. was founded in 1903.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
