Abstracts

HQ Sustainable Maritime Industries, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between HQ Sustainable Maritime Industries, Inc. and its competitors. This provides our Clients with a clear understanding of HQ Sustainable Maritime Industries, Inc. position in the [Food and Beverages](#) Industry.

The report contains detailed information about HQ Sustainable Maritime Industries, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for HQ Sustainable Maritime Industries, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The HQ Sustainable Maritime Industries, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main

financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes HQ Sustainable Maritime Industries, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of HQ Sustainable Maritime Industries, Inc. business.

About HQ Sustainable Maritime Industries, Inc.

HQ Sustainable Maritime Industries, Inc. operates as an integrated aquatic product producing, processing, and farming company in the People's Republic of China, Europe, and Asia.

The company purchases and processes farm bred and farm raised tilapia through cooperative supply arrangements with local farmers and cooperatives. It also purchases and processes ocean-caught aquatic products through cooperative supply arrangements with the local fisherman for its marine bio healthcare products.

The company owns Hainan Jiahua Marine BioProducts Co. Ltd., or Jiahua Marine, which develops, produces and sells marine bio and healthcare products, including nutraceutical products for the enrichment of its feed formulas in China. The principal products of Jiahua Marine are manufactured from fish by-products (tilapia and shark) that include shark cartilage capsules and shark liver oil products that are distributed in China.

Products

Tilapia

Tilapia is farmed worldwide as this fish is disease-resistant, reproduces, eats feeds and tolerates various poor water quality and water with low dissolved oxygen levels. The company promotes its TILOVEYA brand with various distributors and retailers in Europe and the United States. It also has agreement with the Beijing division of Newly Weds Foods, Inc. to introduce a line of battered and breaded flavored TILOVEYA fillet for the Chinese consumer. In addition, it co-developed a process and natural flavoring giving tilapia the taste, texture and aroma of fresh ocean-caught fish. The company's principal operating subsidiary with respect to its seafood products is Hainan Quebec Ocean Fishing Co. Ltd. (HQOF).

Marine Bio and Healthcare Products

The company's wholly-owned subsidiary, Hainan Jiahua Marine BioProducts Co. Ltd. (Jiahua Marine), engages in the development, production, and sale of marine bio and healthcare products in the PRC.

The principal products of Jiahua Marine are manufactured from fish by-products (tilapia and non-endangered shark) that include shark cartilage capsules and shark liver oil products which are distributed in China. It produces approximately 25 products all of which were developed internally. Jiahua Marine offers bio and healthcare products made from tilapia. These products include calcium supplement tablets made from the bones of tilapia and collegian facial creams made from the skin and head of the tilapia.

Shark cartilage—This product is alkaline, it contains chondroitin sulfate and calcium.

Shark liver oil—This product is present in squalene and other nutrients, to which it add vitamins D and E.

Shrimp

The company's principal shrimp product is the white shrimp. Its shrimp is exported to various countries in the following forms: head-on shell-on shrimps, headless shell on shrimps, peeled tail-on shrimps, peeled and deveined shrimps, peeled and undeveined shrimps.

Competition

The company competes mainly with 8th Sea—The Organic Seafood Company.

History

HQ Sustainable Maritime Industries, Inc. was founded in 1989.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
