Hudson Technologies Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Hudson Technologies Inc. and its competitors. This provides our Clients with a clear understanding of Hudson Technologies Inc. position in the **Commercial Services and Supplies Industry**.

- The report contains detailed information about Hudson Technologies Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Hudson Technologies Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Hudson Technologies Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Hudson Technologies Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Hudson Technologies Inc. business.

About Hudson Technologies Inc.

Hudson Technologies, Inc., through its wholly owned subsidiary, Hudson Technologies Company, operates as a refrigerant services company, which provides solutions to recurring problems within the refrigeration industry.

Products and Services

Refrigerant Sales: The company sells reclaimed and virgin (new) refrigerants to various customers in various segments of the air conditioning and refrigeration industry. Virgin, non-CFC refrigerants, including hydrochlorofluorocarbons (HCFC) and hydrofluorocarbon (HFC) refrigerants, are purchased by the company from various suppliers and resold by the company, typically at wholesale. It also sells reclaimed chlorofluorocarbon (CFC) based refrigerants.

Refrigerant Management Services: The company provides various refrigerant management services, which primarily include reclamation of refrigerants, laboratory testing through the company's laboratory, and banking (storage) services tailored to individual customer requirements. It also separates crossed (commingled) refrigerants and provides re-usable cylinder repair and hydrostatic testing services.

RefrigerantSide Services: The company provides decontamination and recovery services that are performed at a customer's site through the use of portable, high volume, high-speed proprietary equipment, including its patented Zugibeast. Certain of these RefrigerantSide Services, which encompass system decontamination, and refrigerant recovery and reclamation are also proprietary and are covered by process patents.

The company also provides predictive and diagnostic services for its customers. It offers diagnostic services that are intended to predict potential problems in air conditioning and refrigeration systems before they occur. The company's Chiller Chemistry offering integrates various fluid tests of an operating system and the corresponding laboratory results into an engineering report providing its customers with an understanding of the condition of the fluids, the cause for any abnormal findings and the potential consequences if the abnormal findings are not remediated. Fluid Chemistry, an abbreviated version of, the company's Chiller Chemistry offering, is designed to identify systems that require further examination. ChillSmart combines the diagnostic information of Chiller Chemistry with a detailed performance evaluation for an operating refrigeration system and recommendations for eliminating inefficiencies that may have been discovered.

The company also offers Performance Optimization System, which is a system for measuring, modifying, and improving energy systems, including air conditioning and refrigeration systems, in industrial and commercial applications. Its Performance Optimization Services are able to identify specific inefficiencies in the operation of refrigeration systems. The company's Performance Optimization System can be customized to a particular customer's refrigeration system, such as at an industrial facility that utilizes refrigeration in its manufacturing processes, or offered as a product that can be used with air conditioning and packaged refrigeration systems, such as a comfort cooling application in office buildings. When the company combines its Performance Optimization System with its Chiller Chemistry, the company calls this combined offering as ChillSmart.

Strategic Alliances

The company has entered into a global technology and marketing agreement with The Linde Group (Linde), a worldwide industrial gases, vacuum technologies and distribution services company. Under the agreement, the company has licensed its RefrigerantSide Services technology to Linde.

In January 2010, the company entered into a strategic alliance agreement with EOS Climate, Inc. (EOS), which is a provider of technology and services related to the destruction or mitigation of ozone-depleting substances to generate verified emissions reductions for sale in emerging environmental markets. Under the agreement, the company and EOS have established a relationship pursuant to which the company would supply certain CFC refrigerants to EOS, and EOS would utilize the company to perform reclamation and recovery services for emissions reduction projects.

Customers

The company provides its services to commercial, industrial, and governmental customers, as well as to refrigerant wholesalers, distributors, contractors, and to refrigeration equipment manufacturers.

History

Hudson Technologies, Inc. was founded in 1991.
