Abstracts

HuntMountain Resources Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between HuntMountain Resources Ltd. and its competitors. This provides our Clients with a clear understanding of HuntMountain Resources Ltd. position in the [Metals and Mining Industry](#).

The report contains detailed information about HuntMountain Resources Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for HuntMountain Resources Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The HuntMountain Resources Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes HuntMountain Resources Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of HuntMountain Resources Ltd. business.

About HuntMountain Resources Ltd.

HuntMountain Resources Ltd., an exploration stage company, engages in the acquisition, exploration, and development of mineral properties, primarily gold, silver, and associated base metals in North and South America. The company holds mining claims in Santa Cruz province, Argentina; and the state of Chihuahua, Mexico.

Properties

Santa Cruz Province, Argentina

La Josefina Property

The La Josefina property is located in north central Santa Cruz Province. It includes 15 Manifestations of Discovery totaling 52,776 hectares, which are approximately covered by 399 mining claims.

HuntMountain Resources, through its Argentine subsidiary, Cerro Cazador S.A., was awarded the exploration and development rights to the La Josefina Project from Fomento Minero de Santa Cruz Sociedad del Estado (Fomicruz). Fomicruz is owned by

the government of the Santa Cruz province in Argentina. In February 2008, Cerro Cazador S.A. purchased the La Josefina Estancia, a 90 square kilometer parcel of land within the La Josefina project area.

Exploration: As of December 31, 2008, Cerro Cazador S.A. completed a 37,605 meter drilling program on the La Josefina property.

Bajo Pobre Property

Cerro Cazador S.A. signed a Letter of Intent with FK Minera S.A. to acquire a 100% interest in the Bajo Pobre gold property located in Santa Cruz Province, Argentina. In March, 2007, Cerro Cazador S.A. signed a final contract to acquire the Bajo Pobre property. Pursuant to this agreement, Cerro Cazador S.A. could earn approximately a 100% equity interest in the Bajo Pobre property.

El Gateado Property

06 Cerro Cazador S.A. acquired the right to conduct exploration on El Gateado and retain 100% ownership of mineral deposits found within. El Gateado is a 10,000 hectare exploration concession filed with the Santa Cruz Provincial mining authority. The El Gateado Project is located in the north-central part of Santa Cruz Province, the southernmost of the Argentine provinces with a steppe-like region of southern South America, known as Patagonia.

Other Santa Cruz Properties

The company granted rights to explore three properties known as El Overo, El Alazan, and El Tordillo in Santa Cruz province of Argentina. It has the right to conduct exploration on these properties and retain 100% ownership of mineral deposit found within.

United States

Dun Glen Gold Project, Nevada

The company entered into agreements to lease, with an option to purchase, the properties, including the Dun Glen Project. The Dun Glen Gold Project is a precious metal exploration property located in the Sierra district in Dun Glen Canyon on the west flank of the East Range in northern Pershing County, Nevada. The project area includes

94 contiguous unpatented lode mining claims covering approximately 1,700 acres within the Sierra Mining District.

Canada

Abitibi Properties, Quebec

The company entered into an agreement with Diagnos, Inc., (Diagnos) obtaining a option to acquire a 100 percent interest in two prospective gold properties, known as the Lac a l'Eau Jaune Project, holding 21 claims; and Malartic Surimau Project, holding 25 claims located in the Abitibi region of Quebec, Canada. The Quebec properties include 46 provincial mining claims.

El Milagro/El Capitan Property

In 2008, the company purchased a 100% interest in the El Capitan and El Milagro mineral exploration and mining concessions from a Mexican Particular; Jesus Guadalupe Morales located in the northern Mexico state of Chihuahua. El Capitan is a rectangular concession of 8,105 hectares. It surrounds and encompasses the El Milagro concession of 100 hectares.

History

HuntMountain Resources Ltd. was founded in 1927.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
