term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Husqvarna AB competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Husqvarna AB business.

## **About Husqvarna AB**

Husqvarna AB, through its subsidiaries, manufactures outdoor power products for forestry, park maintenance, and lawn and garden care primarily in North America and Europe. It also offers cutting equipment and diamond tools for the construction and stone industries.

### Segments

The company operates in two segments: Consumer Products and Professional Products.

### CONSUMER PRODUCTS SEGMENT

The Consumer Products segment offers petrol-powered wheeled products, such as lawn mowers, garden tractors, and snow throwers; petrol-powered portable products, including chainsaws and trimmers; and electric products, such as lawn mowers, hedge trimmers, robotic lawn mowers, and leaf blowers, as well as irrigation and garden ponds, gardening equipment comprising pruning shears, rakes, and shovels.

### Customers

Consumer products for the mass market are sold mainly through major retail chains and DIY outlets. The company's major customers include Sears, Lowe's, Wal-Mart, Home Depot, B&Q, Leroy Merlin, OBI, Bauhaus and K-R auta

Competitors: The company's competitors include John Deere, Modern Tool and Die Company (MTD) and Toro, Bosch, Hozelock, Global Garden Products (GGP), TTI, and Stihl.

## PROFESSIONAL PRODUCTS SEGMENT

The Professional Products segment focuses on forestry, commercial lawn and garden, and construction products. It provides chainsaws, clearing saws, brush cutters, and accessories, such as chains, blades, protective clothing, and tools; riders and walk-behind lawn mowers, zero-turn mowers, specialty turf-care equipments, trimmers, hedge trimmers, and leaf blowers; and floor saws, tile and masonry saws, wall and wire saws, concrete saws, drill motors and stands, polishing and grinding machines, power cutters and related diamond tools, and diamond tools for the stone industry.

### Competitors

Husqvarna's most important competitors in the professional market segment are the German company Stihl and the American companies John Deere and Toro. Stihl competes primarily within petrol-powered handheld products, such as chainsaws and trimmers, while John Deere and Toro compete mainly within professional equipment for lawn and garden. The most important competitors within equipment for the construction industry are Hilti, which is based in Liechtenstein, Tyrolit in Austria, Saint Gobain and Wheelabrator in France, and Stihl in Germany for power cutters.

### History

Husqvarna AB was founded in 1689.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
