The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of IBX Group Inc. business.

About IBX Group Inc.

IBX Group, Inc. engages in the development and deployment of methods for integrating financial, administrative and information services for the healthcare industry. iBX operates under five divisions:

ibx Technologies, which enables healthcare organizations to maximize their accounts receivables; Florida Healthsource, a network of physical therapy and wellness centers; Medicompliant Solutions, which ensures medical practices' compliance with today's complex legal requirements; Ibx Transcription Services, which offers physicians quick turn-around and Web-accessible progress reports; Nursesstat, which deploys staffing administration technology to healthcare facilities and provides temporary staffing solutions; SportshealthNet.com and TheNetDigest.com, interactive Web portals providing patients with comprehensive healthcare information and advice, and increasing physician referrals.

iBX Technologies

iBX Group's iBX Technologies division creates and deploys innovative solutions for the healthcare industry including equipment integral to the operations of iBX Transcription Services, and technology used for the development of paperless offices, medical record

management and storage, inventory control, and other developing applications.

iBX Technologies has created online order entry/inventory control systems, hand-held wireless PC applications and other interactive, real-time applications that help reduce administrative paperwork and expedite data input and updating. With the help of iBX Technologies, healthcare providers are able to access current inventory or billing files from their office workstations or wireless hand-held devices, and instantly update operating and accounting files.

In addition, this division operates iBX's core business, accounts receivables management, which that enables an array of hospital-based physician groups, medical practices and ancillary healthcare organizations to achieve their financial objectives. Through work-flow analysis, reporting and online access to data, iBX Technologies enhances communication between all involved parties.

Florida Healthsource

iBX is the owner of Florida HealthSource, LLC, a statewide network of healthcare clinics and a workers' compensation referral network for rehabilitation services throughout Florida. During 2004 the company opened a multi-disciplinary healthcare facility in Boca Raton, Florida that offers physical therapy, occupational medicine, pain management and chiropractic care. iBX recently acquired a pulmonary rehabilitation clinic in Delray Beach, Florida and is exploring opportunities within several other medical disciplines. In addition, Florida HealthSource is a provider of comprehensive healthcare services in the areas of chronic pain and job-related injuries, meeting the needs of Florida's employers and payers.

Medicompliant Solutions

iBX's MediCompliant Solutions division is a healthcare legal services organization that enables healthcare providers to achieve and maintain compliance with today's increasingly complex government regulations. The company concentrates on providing legal expertise regarding the comprehensive patient privacy and portability requirements of the Health Insurance Portability and Accountability Act (HIPAA) and the new electronic billing standards required for Medicare reimbursement.

In 2003, MediCompliant Solutions entered into an agreement with Paris Health Services, a developer of comprehensive EDI transaction and compliance software for the healthcare industry, to provide hospitals, physician groups and ancillary healthcare

organizations access to all general Medicare compliance risk areas identified by Office of the Inspector General, as well as the issues covered by the HIPAA privacy and security standards.

ibx Transcription Services

iBX Transcription Services offers healthcare providers complete medical transcription and dictation services, and provides a platform for IBX Group's digital online dictation/transcription product and document management service, along with the workflow services associated with it.

Nursesstat

NursesSTAT offers a technological solution to this ongoing issue: an Internet-enabled, automated system that puts nurses and hospitals together, allowing hospitals to better utilize their own nursing pools, reduce dependence on staffing agencies and provide nurses with greater autonomy and job satisfaction. Contracts are in place at several prominent hospitals in South Florida.

Theratach

In 2003, iBX acquired rights to Theratach, which is a programmable interactive massage device using robotic technology to provide users with a complete massage from the neck to calf. iBX is marketing Theratach to physical therapy centers, chiropractors, hotels and fitness clubs.

Sportshealthnet.Com

iBX Group, Inc., owns SportsHealthNet.com, an interactive Web portal that attracts high levels of consumer traffic by providing comprehensive healthcare information and advice, and helps participating physicians increase the number of referrals to their practices. SportsHealthNet specializes in sports medicine-related issues and provides a wealth of information regarding exercise, nutrition and ways to prevent common injuries, as well as links to other health-related sites.

Competition

The company's principal competitors in the practice management market include WebMD, HealthSouth and ProxyMed.

History

iBX Group, Inc. was organized under the laws of the State of Florida in 1997.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
