Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Icy Splash Food & Beverage Inc. business.

About Icy Splash Food & Beverage Inc.

Icy Splash Food & Beverage, Inc. engages in the production and distribution of the brand name Icy Splash beverages, a line of carbonated beverages. The Company also produces and distributes a proprietary line of baked goods, including pastries. In addition, the Company distributes third party products, including specialty food products, refrigerated products, and a line of third party health and beauty aids (HBA). The Company's product lines are supplied directly to supermarket chains, gourmet stores, grocery stores, convenience stores, 99 Cent Stores and distributors in the New York metropolitan area. The Company distributes its products from its Brooklyn, New York locations.

Products and Marketing

In 2004, the Company expanded its business to include distribution of HBA products. Further in 2005, it expanded its product line by including milk and dairy products and added refrigerated trucks for the delivery of these new lines of products. It plans to add a refrigerated storage facility and expand the refrigerated product lines to be sold to its customer base. The Company also acquired baking and baking-related equipment. In addition, it distributes baked bread. The acquisition of bakery equipment, and the inclusion of bread in its product line, is facilitating its addition of a bakery operation that

includes two units. The first unit is bread distribution, and the second unit is pastry products.

In 2005, the Company entered into a license and warehousing agreement with MountSpil Products Corp. pursuant to which the Company is the seller of MountSpil's products in the tri-state area of New York, New Jersey and Connecticut. The agreement provides that the Company can utilize the MountSpil and Shan logos and trade names for the products. Under this agreement, MountSpil also provides certain warehousing services to the Company.

Suppliers

The Company depends on a ready supply of products and raw materials from abroad and/or locally. The Company imports various lines of specialty food and HBA products from Canada, Mexico, Argentina, Honduras, Greece, Turkey, Israel, Egypt, Oman, China, and India. The Company also exports over-the-counter pharmaceutical and HBA products to Europe and the Middle East.

History

Icy Splash Food & Beverage, Inc. was incorporated in the year 1996.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
