The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Idaho Independent Bank business.

## **About Idaho Independent Bank**

Idaho Independent Bank, a commercial bank, provides banking products and services to small to medium-sized businesses, professionals, and retail customers in Idaho.

As of December 31, 2008, the bank operated 12 branches located in Coeur d'Alene, Hayden, Boise (3), Meridian, Nampa, Caldwell, Mountain Home, Ketchum, Eagle, and Star, Idaho.

### **Lending Activities**

The bank's loan portfolio primarily consists of commercial loans, residential and commercial real estate loans, residential and commercial construction loans, consumer loans, and credit card accounts.

The bank's commercial loans primarily consist of loans to businesses for various purposes, including revolving lines of credit and equipment loans. These loans generally have short maturities, adjustable rates or fixed rates, and are either unsecured or secured by inventory, accounts receivable, equipment, other personal property, real estate, or a combination thereof.

The bank's real estate loans include various types of loans for which it holds real property as collateral, including land acquisition and land development loans. The bank also sells real estate loans into the secondary market to various investors and other financial institutions through its residential real estate department. The bank sells both variable- and fixed-rate, and single-family, as well as other residential real estate loans.

The bank's real estate construction loans are typically made to individuals and/or contractors to construct single-family residences and commercial buildings. Its consumer loans are primarily unsecured, automobile, bankcard, or home equity lines of credit, and closed-end home equity loans.

### Investment Activities

As of December 31, 2008, the bank's investment portfolio included U.S. treasury and agency securities; municipal bonds; trading securities; and other securities, including FHLB of Seattle stock.

### Deposits

The bank offers various interest-bearing accounts designed to attract both short-term and long-term deposits. These accounts include negotiable order of withdrawal (NOW) accounts, money market investment accounts, savings accounts, certificates of deposit, and other time deposits.

### History

Idaho Independent Bank was founded in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
