company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Information Analysis Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Information Analysis Inc. business.

### **About Information Analysis Inc.**

Information Analysis Incorporated engages in modernizing client information systems, developing and maintaining information technology systems, and performing consulting services to government and commercial organizations. The company provides services to customers throughout the United States, with a concentration in the Washington, D.C. metropolitan area.

The company has developed a series of workbench tools called ICONS. These tools, used in conjunction with its methodology, improve a programmer's ability to convert code to new platforms and/or computer languages. ICONS can be used with various languages, such as DATACOM COBOL and IDEAL and Unisys COBOL. ICONS facilitates its ability to provide systems modernization services to companies and government agencies that seek to migrate from mainframe legacy systems to modern environments, including computer languages, data bases, and mainframe, midrange, client servers, intranet, and Internet platforms.

The company also resells and installs third party software products, including Micro Focus suite of products that facilitate the conversion process and enable the entry screens to be Internet accessible; and Adobe electronic forms software products.

## Partnerships

The company has formed partnerships with firms, such as IBM, EDS, Northrop Grumman, Unisys, SI International, and Oracle. It has built important relationships with companies, such as General Dynamics, Price Waterhouse Coopers, and Deloitte Consulting.

## Customers

The company has performed software development and conversion projects for approximately 100 commercial and government customers, including Computer Sciences Corporation; IBM; Computer Associates; MCI; Sprint; Citibank; U.S. Department of Homeland Security; U.S. Treasury Department; U.S. Department of Agriculture; U.S. Department of Energy; U.S. Army; U.S. Air Force; U.S. Department of Veterans Affairs; and the Federal Deposit Insurance Corporation.

## Competition

The company faces competition from other companies that purport to automate the process through software tools, including Blue Phoenix Solutions, Fujitsu, and IBM.

## History

Information Analysis Incorporated was founded in 1979.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
