Innochip Technology Co., Ltd Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Innochip Technology Co., Ltd and its competitors. This provides our Clients with a clear understanding of Innochip Technology Co., Ltd position in the **Computers and Electronic Equipment Industry**.

- The report contains detailed information about Innochip Technology Co., Ltd that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Innochip Technology Co., Ltd. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Innochip Technology Co., Ltd financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Innochip Technology Co., Ltd competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Innochip Technology Co., Ltd business.

### About Innochip Technology Co., Ltd

Innochip Technology Co., Ltd. engages in the manufacture and sale of electronic components worldwide. Its product portfolio comprises ESDFIL that suppresses unwanted electro magnetic interference signals and provides electro static discharge protection in portable electronic equipment; chip varistor, an electronic component used to protect integrated circuits and other components from voltage transients; and ESD suppressors, which protects sensitive equipment against the electrostatic discharge. The company also

offers ceramic resonator, a component for clock oscillators in a range of microprocessors; and negative thermal coefficient thermistor, a thermally sensitive semiconductor resistor, which show a decrease in resistance as temperature increases. Innochip's products are applied in a range of electronic products comprising digital still camera, cellular phone, personal digital assistant, digital versatile disk recorder, game machine, hard disk, and USB. The company was founded in 2000 and is based in Siheung, South Korea.

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
