Abstracts

Insite Vision Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Insite Vision Inc. and its competitors. This provides our Clients with a clear understanding of Insite Vision Inc. position in the [Healthcare Equipment and Supplies](#) Industry.

The report contains detailed information about Insite Vision Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Insite Vision Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Insite Vision Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Insite Vision Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Insite Vision Inc. business.

About Insite Vision Inc.

InSite Vision Incorporated, an ophthalmic product development company, focuses on advancing ophthalmic pharmaceutical products to address unmet eye care needs. The company's portfolio of ophthalmic pharmaceutical products is based on its DuraSite drug delivery technology.

The company's DuraSite sustained drug delivery technology is a synthetic polymer-based formulation designed to extend the residence time of a drug relative to conventional topical therapies. It enables topical delivery of a drug as a solution, gel or suspension and can be customized for delivering various drug candidates. The company may also utilize its DuraSite technology platform for the formulation of new ocular product candidates using either non-proprietary drugs or compounds originally developed by others for non-ophthalmic indications.

Products and Product Candidates

The DuraSite Product Family of Topical Anti-infectives and Product Candidates

AzaSite

AzaSite (azithromycin ophthalmic solution) 1% is a DuraSite formulation of azithromycin developed as an ocular antibiotic and approved to treat bacterial conjunctivitis (pink eye). AzaSite is launched commercially in the United States by Inspire Pharmaceuticals (Inspire) for bacterial conjunctivitis (pink eye). In the United States, its commercial partner, Inspire, focuses on ophthalmologists and optometrists who routinely treat eye infections.

Besivance

Besivance (besifloxacin ophthalmic suspension) 0.6% is a DuraSite formulation of besifloxacin developed as an ocular antibiotic and approved to treat bacterial conjunctivitis (pink eye). Besivance was developed by Bausch and Lomb Incorporated and commercially launched in 2009 in the United States.

ISV-502

ISV-502 is a fixed combination of azithromycin and dexamethasone in the DuraSite vehicle for the treatment of ocular inflammation and infection (blepharitis and/or blepharoconjunctivitis). The company has completed the Phase 3 trial of ISV-502 for blepharitis/blepharoconjunctivitis.

ISV-305

ISV-305 is a DuraSite formulation of dexamethasone in development for the treatment of eye inflammation caused by infections, injury, surgery or other conditions.

ISV-303

ISV-303 is a DuraSite formulation of bromfenac in development for the treatment of post operative inflammation and eye pain in patients who have undergone cataract extraction. The company is preparing an investigational new drug application (IND) for this product candidate.

ISV-405

The company is in the early stages of developing ISV-405, a product candidate with a percentage of azithromycin as part of its formulation than with AzaSite. ISV-405 is being developed for the treatment of eye infections. ISV-405 is in preclinical development for the treatment of ocular infection for markets outside the United States.

Collaborative, Licensing, and Service Agreements

Shin Poong Pharm Co., Ltd.: The company has entered into an international licensing and distribution agreement for AzaSite with Shin Poong, Seoul, South Korea. Under the terms of the agreement, the company granted rights to Shin Poong to commercialize AzaSite for ocular bacterial infection in South Korea.

Essex Bio-Technology: The company has entered into a licensing and distribution agreement for AzaSite with Essex Bio-Technology in the People's Republic of China. Under the terms of the agreement, the company granted rights to Essex Bio-Technology to commercialize AzaSite for ocular bacterial infection in the People's Republic of China.

Nitten Pharmaceutical Co., Ltd.: In 2009, the company entered into a licensing and distribution agreement for AzaSite with Nitten Pharmaceutical Co., Ltd. in Japan. Under the terms of the agreement, the company granted rights to Nitten to commercialize AzaSite for ocular bacterial infection in Japan and Taiwan.

Pfizer Inc. and Pfizer Products, Inc: The company has entered into licensing agreement with Pfizer, under Pfizer's patent family titled Method of Treating Eye Infections with Azithromycin for ocular anti-infective product candidates known as AzaSite and ISV-502. The company has the right to grant sublicenses, subject to Pfizer's prior approval.

Catalent Pharma Solutions (Catalent): The company has relationship with Catalent for the manufacture of AzaSite for international partners, as well as for other products in its pipeline.

History

Insite Vision Incorporated was founded in 1986.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
