## Abstracts

Interactive Brokers Group, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Interactive Brokers Group, Inc. and its competitors. This provides our Clients with a clear understanding of Interactive Brokers Group, Inc. position in the Industry.

The report contains detailed information about Interactive Brokers Group, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Interactive Brokers Group, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Interactive Brokers Group, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Interactive Brokers Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Interactive Brokers Group, Inc. business.

### **About Interactive Brokers Group, Inc.**

Interactive Brokers Group, Inc. operates as an automated global electronic market maker and broker. The company engages in routing orders, and executing and processing trades in securities, futures, and foreign exchange instruments on approximately 80 electronic exchanges and trading venues worldwide. It operates primarily in the U.S. and through its offices located in Canada, England, Switzerland, Hong Kong, India, Australia and Japan.

#### Segments

The company operates in two segments, Market Making and Electronic Brokerage.

#### Market Making—Timber Hill

This segment provides bid/offer spreads over a base of approximately 600,000 tradable, exchange-listed products, including equity derivative products, equity index derivative products, equity securities and futures. The company conducts its market making business through its Timber Hill (TH) subsidiaries. It engages in market making operations in North and South America, Europe and in the Asia/Pacific regions.

**North and South American Market Making Activities:** The company's U.S. market making activities are conducted through Timber Hill LLC (TH LLC), a SEC-registered securities broker-dealer that conducts market making in equity derivative products, equity index derivative products and equity securities. TH LLC is a member at NYSE Alternext, NYSE AMEX Options, Boston Options Exchange, Chicago Board Options Exchange, Chicago Mercantile Exchange, Chicago Board of Trade, International Securities Exchange, NYSE/ARCA, OneChicago and NASDAQ OMX PHLX. The company also conducts market making activities in Canada through its Canadian subsidiary, Timber Hill Canada Company (THC) at Toronto Stock Exchange and Chi-X and at MEXDER and BMV in Mexico and at BOVESPA and BMF in Brazil through TH LLC.

**International Market Making Activities:** The company's international market making subsidiaries, primarily Timber Hill Europe AG (THE), conduct operations in 23 countries, comprising the major securities markets in these regions.

In Germany and Switzerland, the company is an equity options market maker. The company also has been active in trading German stocks and warrants as a member of the XETRA, the German electronic stock trading system, and the Frankfurt and Stuttgart stock exchanges; and in Swiss stocks and warrants as a member of the SWX Swiss Exchange. The company's other European operations are conducted on the London Stock Exchange; the Irish Stock Exchange; the Copenhagen Stock Exchange; the Helsinki Stock Exchange; the Euronext exchanges in Amsterdam, Paris, Brussels, Lisbon and London; NASDAQ OMX Sweden, the Swedish and Norwegian options market; the Swedish Stock Exchange; the MEFF and Bolsa de Valencia in Spain; the IDEM and Borsa Italiana in Milan; and the ÖTOB in Vienna.

The company's Hong Kong subsidiary, Timber Hill Securities Hong Kong Ltd (THSHK), is a member of the cash and derivatives markets of the Hong Kong Exchanges. The company's Australian subsidiary, Timber Hill Australia Pty Ltd (THA), is a member of the Australian Stock Exchange, and routes orders for its trading on the Sydney Futures Exchange through its affiliate, Interactive Brokers LLC. In 2008 the company began its market making operation in India through its subsidiary, Interactive Brokers (India) Private Limited (IBI), which is a member of the National Stock Exchange of India and the Bombay Stock Exchange.

#### Electronic Brokerage—Interactive Brokers

This segment provides its customers with an order management, trade execution, and

portfolio management platform. It serves the customers of both traditional brokers and prime brokers. The company's customers can simultaneously access different financial markets worldwide and trade across multiple asset classes (stocks, options, futures, foreign exchange (forex), bonds and mutual funds) denominated in 14 different currencies, on one screen, from a single account based in any major currency.

The company conducts its electronic brokerage business through its Interactive Brokers (IB) subsidiaries. As an electronic broker, the company executes, clears and settles trades globally for both institutional and individual customers.

### IB Universal

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
