The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Intervest Bancshares Corp. business.

About Intervest Bancshares Corp.

Intervest Bancshares Corporation operates as the holding company for Intervest National Bank (INB) and Intervest Mortgage Corporation (IMC), which engage in banking and real estate lending businesses.

Intervest National Bank

INB operates as a commercial bank that has its headquarters and full-service banking office at One Rockefeller Plaza, Suite 400, in New York City, and a total of six full-service banking offices in Pinellas County, Florida - four in Clearwater, one in Clearwater Beach and one in South Pasadena.

INB conducts a personalized commercial and consumer banking business that attracts deposits from the general public. INB also provides Internet banking services through its Web site, which also attracts deposit customers from outside its primary market areas. INB uses the deposits, together with funds generated from its operations, principal repayments on loans and securities and other sources, to originate mortgage loans secured by commercial and multifamily real estate and to purchase investment securities.

The principal sources of funds for INB's lending activities are deposits, repayment of loans, maturities and calls of securities and cash flow generated from operations. INB has an agreement with Fidelity Information Services, a division of Fidelity National Financial, to provide INB with its core data processing using the Kirchman Bankway software, a product of the Kirchman Corporation, which is a division of Metavante Corporation.

Interwest Mortgage Corporation

IMC's lending business focuses on the origination of mortgage loans secured by commercial and multifamily real estate. It provides loan origination services.

Lending Activities

The company's lending activities consist of the origination for its loan portfolio of mortgage loans secured by commercial and multifamily real estate (including rental and cooperative/condominium apartment buildings, office buildings, mixed-use properties, shopping centers, hotels, restaurants, industrial/warehouse properties, parking lots/garages, mobile home parks, self-storage facilities, and vacant land). It also offers commercial and consumer loans.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included securities of U.S. government agencies and corporate securities. It also invests in various money market instruments (including overnight and term federal funds, short-term bank commercial paper and certificates of deposit) to temporarily invest excess cash flow generated from its deposit-gathering activities and operations.

Deposits

The company's deposit accounts are solicited from individuals, small businesses, and professional firms located throughout its primary market areas through the offering of various deposit products, including certificates of deposit; individual retirement accounts (IRAs); checking and other demand deposit accounts; negotiable order of withdrawal (NOW) accounts; savings accounts; and money market accounts.

History

Intervest Bancshares Corporation was founded in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
