The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Investors Title Co. business.

About Investors Title Co.

Investors Title Company, through its subsidiaries, provides title insurance, as well as tax-deferred real property exchange services in the United States. The main business activity is the issuance of residential and commercial title insurance through Investors Title Exchange Corporation (ITIC) and Northeast Investors Title Insurance Company (NE-ITIC). It also provides tax-deferred exchange services through its subsidiaries, Investors Title Exchange Corporation (ITEC) and Investors Title Accommodation Corporation (ITAC). The company also provides investment management and trust services to individuals, trusts, and other entities.

Title Insurance

The company underwrites land title insurance for owners and mortgagees as a primary insurer. ITIC and NE-ITIC offer primary title insurance coverage to both owners and mortgagees of real estate and also offers the reinsurance of title insurance risks to other title insurance companies. Title insurance protects against loss or damage resulting from title defects that affect real property.

Title Insurance Policies: There are two basic types of title insurance policies - one for the mortgage lender and one for the real estate owner.

Geographic Operations

ITIC primarily writes land title insurance in 22 states and the District of Columbia, primarily in the eastern half of the United States. ITIC is licensed to write title insurance in 44 states and the District of Columbia. NE-ITIC writes title insurance as a primary insurer and as a reinsurer in the State of New York. N-ITIC is also licensed to write title insurance in 19 additional states and the District of Columbia. In the state of North Carolina, ITIC primarily issues title insurance commitments and policies through branch offices.

Exchange Services, Investment Management and Trust Services

The company's other lines of business include services offered by wholly owned subsidiaries ITEC, ITAC, Investors Trust Company (Investors Trust), Investors Capital Management Company (ICMC), and Investors Title Management Services, Inc. (ITMS), all wholly owned subsidiaries of it.

ITEC provides services in connection with tax-deferred exchanges of like-kind property pursuant to Section 1031 of the Internal Revenue Code. ITEC acts as an intermediary in tax-deferred exchanges of property held for productive use in a trade or business or for investments, and its income is derived from fees for handling exchange transactions and interest earned on client deposits held by the company. ITAC provides services for accomplishing reverse exchanges when taxpayers decide to acquire replacement property before selling the relinquished property.

Investors Trust and ICMC work together to provide investment management and trust services to individuals, companies, banks, and trusts. ITMS offers various consulting services.

History

Investors Title Company was founded in 1972.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same

price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
