Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ishihara Chemical Co. Ltd. business.

About Ishihara Chemical Co. Ltd.

Ishihara Chemical Co., Ltd. provides metal surface treatment agents, electronic materials and devices, automotive chemicals, and industrial chemicals principally in Japan. The company develops and manufactures solder plating solutions for use in manufacturing semiconductors that are used in home electric appliances, communication equipment, and office automation equipment. It also provides anti-spatter agents to be applied to the weld metal before welding. Ishihara supplies submicron nickel powder that is used in capacitors as electrode material. The company also supplies car fragrance agents,

tire coating agents, car polishes, and wheel cleaners for retailers, as well as brake dust cleaners, car washes, car polishes, glass cleaners, and tire cleaners for gas stations. Further, it provides surface treatment agents for steel sheets for automobiles and the electrical industry; catalysts for vinyl chloride monomers and special activated carbon for solvent recovery in the chemical industry; and chemicals for water treatment for water supply and sewerage systems. Ishihara Chemical Co. was established in 1939 and is headquartered in Kobe, Japan.
