Abstracts

JA Solar Holdings Co., Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between JA Solar Holdings Co., Ltd. and its competitors. This provides our Clients with a clear understanding of JA Solar Holdings Co., Ltd. position in the Semiconductor Industry.

The report contains detailed information about JA Solar Holdings Co., Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for JA Solar Holdings Co., Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The JA Solar Holdings Co., Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company’s long-term solvency. This sort of company's information will assist and strengthen your company’s decision-making processes.

In the part that describes JA Solar Holdings Co., Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company’s competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company’s business and sales activities will be boosted by gaining an insight into your competitors’ businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of JA Solar Holdings Co., Ltd. business.

About JA Solar Holdings Co., Ltd.

JA Solar Holdings Co., Ltd. manufactures solar cells in China. The company’s solar modules and systems that incorporate the company's products are distributed internationally, including to end-customers in Europe, Asia and the Americas.

Products

The company designs, manufactures, and markets solar cells, which are made from specially processed silicon wafers. Its solar cells are assembled and integrated into solar modules and systems that convert sunlight into electricity through a process known as the photovoltaic effect. The company produces and sells primarily monocrystalline solar cells and is in trial production of multicrystalline solar cells.

The company also provides cell processing services to customers who supply with their own wafers and it processes these wafers into solar cells that are sold back to them. It also engages third party OEM (Original Equipment Manufacturers) producers to assemble the solar cells it produces into solar modules that meet customers’ requirements.

Suppliers

+44 20 8123 2220
info@marketpublishers.com

The company has entered into long term wafer supply contracts with among others, Jinglong Group.

Customers

The company sells its solar cells principally to solar module manufacturers, who assemble and integrate its products into modules and systems. It sells a portion of its products to module manufacturers based in China.

Significant Events

On June 10, 2010, JA Solar Holdings Co., Ltd. announced that it has partnered with the Stichting Energieonderzoek Centrum Nederland to introduce the metal wrap through solar cell and module technology into production.

On July 12, 2010, JA Solar Holdings Co., Ltd. announced that it has signed strategic agreements with Innovalight, Inc. JA Solar signed a three-year supply agreement for silicon nanoparticle ink from Innovalight for the production of JA Solar's SECIUM high efficiency solar cells.

On July 14, 2010, JA Solar Holdings Co., Ltd. announced that the company has signed a three-year strategic agreement with Innovalight, Inc., with the latter to supply silicon nanoparticle ink for JA Solar's production of SECIUM solar cells.

In July 2010, JA Solar Holdings Co., Ltd. has signed a three year supply agreement for silicon nano particle ink from Innovalight, Inc., for the production of JA Solar's Secium high efficiency solar cells.

Competition

The company’s competitors include Suntech Power Holdings Co., Ltd. and Trina Solar Limited.

History

JA Solar Holdings Co., Ltd. was founded in 2005.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

+44 20 8123 2220
info@marketpublishers.com

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

+44 20 8123 2220
info@marketpublishers.com

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources
- Financial
- Physical
- Technological
- Organizational

Intangible resources
- Human
- Innovation and Creativity

+44 20 8123 2220
info@marketpublishers.com

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company’s competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
